A R R A N G E M E N T BETWEEN THE SLOVENIAN NUCLEAR SAFETY ADMINISTRATION (S.N.S.A.) AND THE UNITED STATES NUCLEAR REGULATORY COMMISSION (U.S.N.R.C.) FOR THE EXCHANGE OF TECHNICAL INFORMATION AND COOPERATION IN NUCLEAR SAFETY MATTERS

April 29, 1999

The Slovenian Nuclear Safety Administration (hereinafter called the S.N.S.A.) and the United States Nuclear Regulatory Commission (hereinafter called the U.S.N.R.C.), the two together hereinafter referred to as the Parties;

Having a mutual interest in a continuing exchange of information pertaining to regulatory matters and of standards required or recommended by their organizations for the regulation of safety and environmental impact of nuclear facilities;

Having similarly cooperated under the terms of a five-year Arrangement for the Exchange of Technical Information and Cooperation in Nuclear Safety Matters, originally signed in Ljubljana on December 6, 1993, such Arrangement including provision for its extension upon written agreement of the Parties;

Having indicated their mutual desire to continue the cooperation so established for another five years;

Have agreed as follows:

I. OBSEG SPORAZUMA

I.1 Izmenjava tehničnih informacij

Kolikor dovoljujejo zakoni, drugi predpisi in programske usmeritve pogodbenic, se US NRC IN URSJV strinjata, da bosta nadaljevali z izmenjavo naslednjih vrst tehničnih informacij, ki se nanašajo na urejanje varnosti, varovanje jedrskih materialov, ravnanje z odpadki in vpliv določenih jedrskih objektov na okolje:

a. tematska poročila, ki se nanašajo na varnost, varovanje jedrskih materialov, ravnanja z odpadki in vpliva na okolje, ki jih pripravi ena od pogodbenic ali se pripravijo zanj kot podlaga ali podpora za upravno odločanje in usmeritve;

b. dokumente, ki se nanašajo na pomembnejša dejavnosti v okviru upravnega odločanja, ter sklepe, ki se nanašajo na varnost in varstvo okolja in vplivajo na jedrske objekte;

c. podrobne dokumente, ki opisujejo postopek US NRC za izdajo dovoljenj in urejanje določenih objektov v ZDA, za katere URSJV meni, da so podobne objektom, ki so zgrajeni ali načrtovani v Sloveniji in ustrezne dokumente za takšne slovenske objekte;

d. informacije na področju raziskovanj o varnosti reaktorjev, ki jih imata pogodbenici pravico javno objaviti, ne glede na to, ali so last pogodbenice ali pa so ji dane na razpolago, vključno z informacijami o varnosti lahko-vodnih reaktorjev, omejene na tehnična področja, opisana v dodatkih "A" in "B", ki sta priložena in sta del tega sporazuma. Sodelovanje na teh razčlenjenih področjih raziskovanj bo lahko terjalo sklenitev posebnega sporazuma, če bi tako določile raziskovalne organizacije ene ali obeh pogodbenic. Vsaka pogodbenica pošlje drugi pogodbenici nujne informacije, ki se nanašajo na izsledke raziskovanj, ki jih treba takoj obravnavati zaradi javne varnosti, skupaj z navedbo pomembnih posledic;

e. poročila o izkušnjah pri obratovanju, kot so poročila o jedrskih nezgodah, nesrečah in prekinitvah obratovanja, ter kompilacija zgodovinskih podatkov o zanesljivosti komponent in sistemov;

f. upravne postopke za varnost, varovanje jedrskega materiala, ravnanje z odpadki in oceno vpliva jedrskih objektov na okolje;

g. takojšnja obvestila o pomembnih dogodkih, kot so resne obratovalne nezgode in prekinitev obratovanja reaktorjev po odločitvi vlade, ki so neposrednega pomena za pogodbenici;

h. kopije predpisanih standardov, ki se morajo uporabljati ali katerih uporabo predlagajo organizacije pogodbenic, pristojne za pripravo predpisov.

I.2 Sodelovanje pri raziskovanju na področju varnosti

Pogodbenici se o izvajjanju skupnih programov in projektov na področju raziskovanja varnosti in razvoja ali takšnih programov in projektov, pri katerih so aktivnosti razdeljene na obe pogodbenici, vključno z uporabo testnih naprav in/ali računalniških programov, katerih lastnik je ena ali druga pogodbenica, sporazumevata od primera do primera in je le-to lahko predmet posebnega sporazuma, če ena ali druga pogodbenica meni, da je to potrebno. Sicer bo izvajanje potekalo z izmenjavo pisem med pogodbenicama, vsaj v okviru določb in pogojev tega sporazuma. Tehnična področja, določena s takšno izmenjavo pisem, so lahko kasneje spremenjena po medsebojnem dogovoru. Občasno pošiljanje strokovnjakov ene pogodbenice drugi se prav tako obravnava od primera do primera.

I. SCOPE OF THE ARRANGEMENT

I.1 Technical Information Exchange

To the extent that the U.S.N.R.C. and the S.N.S.A. are permitted to do so under the laws, regulations, and policy directives of their respective countries, the Parties will continue the exchange of the following types of technical information relating to the regulation of safety, safeguards, waste management, and environmental impact of designated nuclear facilities:

a. Topical reports concerning safety, safeguards, waste management, and environmental effects written by or for one of the parties as a basis for, or in support of, regulatory decisions and policies.

b. Documents relating to significant licensing actions and safety and environmental decisions affecting nuclear facilities.

c. Detailed documents describing the U.S.N.R.C. process for licensing and regulating certain U.S. facilities designated by the S.N.S.A. as similar to certain facilities being built or planned in Slovenia and equivalent documents on such Slovenian facilities.

d. Information in the field of reactor safety research which the Parties have the right to disclose, either in the possession of one of the Parties or available to it, including light water reactor safety information from the technical areas described in Addenda "A" and "B", attached hereto and made a part hereof. Cooperation in these itemized research areas may require a separate agreement, as determined to be necessary by the research organizations of one or both of the Parties. Each Party will transmit to the other urgent information concerning research results that require early attention in the interest of public safety, along with an indication of significant implications.

e. Reports on operating experience, such as reports on nuclear incidents, accidents and shutdowns, and compilations of historical reliability data on components and systems.

f. Regulatory procedures for the safety, safeguards, waste management, and environmental impact evaluation of nuclear facilities.

g. Early advice of important events, such as serious operating incidents and government-directed reactor shutdowns, that are of immediate interest to the Parties.

h. Copies of regulatory standards required to be used, or proposed for use, by the regulatory organizations of the Parties.

I.2 Cooperation in Safety Research

The execution of joint programs and projects of safety research and development, or those programs and projects under which activities are divided between the two Parties, including the use of test facilities and/or computer programs owned by either Party, will be agreed upon on a case-by-case basis and may be the subject of a separate agreement, as determined to be necessary by one or both of the Parties. Other times, it may be accomplished by an exchange of letters between the Parties, subject at least to the terms and conditions of the present Arrangement. Technical areas specified by such exchanges of letters may be modified subsequently by mutual consent. Temporary assignments of personnel by one Party in the other Party's agency will also be considered on a case-by-case basis.

I.3. Usposabljanje in napotitve

V okviru meja razpoložljivih virov in glede na razpoložljivost namenjenih sredstev bo US NRC skušala pomagati URSJV pri zagotavljanju usposabljanja in pridobivanja izkušenj za strokovnjake URSJV s področja varnosti. Stroške plač, dnevnic in potne stroške udeležencev URSJV plača URSJV. Naslednji primeri so značilni za kategorije takšnega usposabljanja in pridobivanja izkušenj:

a. inšpekcijski obiski inšpektorjev URSJV v spremstvu inšpektorjev US NRC v reaktorjih, ki obratujejo in v reaktorjih, ki jih še gradijo v ZDA, vključno z izčrpnim informiranjem v regionalnih inšpekcijskih uradih US NRC;

b. udeležba uslužbencev URSJV na tečajih za usposabljanje osebjja US NRC;

c. napotitev strokovnjakov URSJV za dobo 6 – 24 mesecev, za delo z osebjem US NRC na nalogah US NRC in za pridobivanje izkušenj pri delu.

I.4. Dodatni nasveti na področju varnosti

V kolikor dokumenti in druge informacije, ki jih zagotovi US NRC in so opisani zgoraj v OBSEGU SPORAZUMA, ne zadostujejo potrebam URSJV po tehničnih nasvetih, se pogodbenici posvetujeta o najboljšem načinu za njihovo izpolnitve. US NRC si bo v mejah svojih zmožnosti in zakonskih pooblastil prizadevala pomagati URSJV pri zadovoljevanju teh potreb. US NRC si bo tako, na primer, prizadevala, da odgovori tudi na zahteve Mednarodne agencije za atomsko energijo (IAEA) za sodelovanje misij tehnične pomoči za Slovenijo, ki jih bodo sestavljali strokovnjaki za varnost iz US NRC.

I.5. Sodelovanje v primeru jedrske nevarnosti

V primeru večje jedrske nezgode ali nesreče v Sloveniji, ki vključuje jedrsko elektrarno, dobavljeno s strani ZDA, si bo US NRC v mejah zakonskih pooblastil in svojih zmožnosti prizadevala na zahtevo URSJV zagotoviti tehnične nasvete in pomoč. O vrsti in obsegu takšnih nasvetov in pomoči se bosta US NRC in URSJV dogovorili od primera do primera. Če ni drugače dogovorjeno, bodo specifični nasveti in pomoč US NRC iz tega člena bremenili stroške URSJV.

II. IZVAJANJE SPORAZUMA

a. V okviru tega sporazuma se bodo informacije izmenjavale preko pisem, poročil in drugih dokumentov ter z obiski in sestanki, ki se določijo vnaprej od primera do primera. Letno bo organiziran en sestanek, za druge termine pa kot se bosta pogodbenici skupno dogovorili, da bi pregledali izmenjavo informacij in sodelovanje v okviru tega sporazuma, priporočili morebitne spremembe sporazuma in teme v okviru sodelovanja. O času, kraju in dnevnem redu sestankov se bosta pogodbenici dogovorili vnaprej. Obiski, ki se izvedejo po tem sporazumu, vključno z njihovimi programi, bodo predhodno odobreni s strani obeh administratorjev, navedenih v točki b II. odstavka.

b. Vsaka pogodbenica bo imenovala administratorja, ki bo usklajeval udeležbo pri skupni izmenjavi. Administratorja bosta sprejemala vse dokumente, ki se pošiljajo v okviru izmenjave, vključno s kopijami vseh pisem, če ni dogovorjeno drugače. V okviru izmenjave bosta administratorja odgovorna za določitev obsega izmenjave, vključno z dogovorom

I.3 Training and Assignments

Within the limits of available resources and subject to the availability of appropriated funds, the U.S.N.R.C. will try to assist the S.N.S.A. in providing certain training and experience for S.N.S.A. safety personnel. Costs of salary, allowances, and travel of S.N.S.A. participants will be paid by the S.N.S.A. The following are typical of the categories of such training and experience that may be provided:

a. S.N.S.A. inspector accompaniment of U.S.N.R.C. inspectors on reactor operation and reactor construction inspection visits in the U.S., including extended briefings at U.S.N.R.C. regional inspection offices.

b. Participation by S.N.S.A. employees in U.S.N.R.C. staff training courses.

c. Assignment of S.N.S.A. experts for 6-24 month periods within the U.S.N.R.C. staff to work on U.S.N.R.C. staff duties and gain on-the-job experience.

I.4 Additional Safety Advice

To the extent that the documents and other information provided by the U.S.N.R.C. as described in SCOPE OF THE ARRANGEMENT, above, are not adequate to meet S.N.S.A. needs for technical advice, the Parties will consult on the best means for fulfilling such needs. The U.S.N.R.C. will attempt, within the limitations of appropriated resources and legislative authority, to assist the S.N.S.A. in meeting its needs. For example, within these limitations, the U.S.N.R.C. will attempt to meet requests that come through the International Atomic Energy Agency (IAEA) for technical assistance missions to Slovenia by U.S.N.R.C. safety experts.

I.5 Cooperation During Nuclear Emergencies

In case of a significant nuclear incident or accident in Slovenia involving a U.S.-supplied nuclear power plant, the U.S.N.R.C. will try, within the limits of its legislative authority and available resources, to provide technical advice and assistance to the S.N.S.A. at its request. The type and extent of such U.S.N.R.C. advice and assistance will be determined by the U.S.N.R.C. and the S.N.S.A. on a case-by-case basis. Unless otherwise agreed, however, all U.S.N.R.C. costs for providing specific advice and assistance to the S.N.S.A. under this Article will be borne by the S.N.S.A.

II. ADMINISTRATION

a. The exchange of information under this Arrangement will be accomplished through letters, reports, and other documents, and by visits and meetings arranged in advance on a case-by-case basis. A meeting will be held annually, or at such other times as mutually agreed, to review the exchange of information and cooperation under this Arrangement, to recommend revisions to the Arrangement, and to discuss topics coming within the scope of the cooperation. The time, place, and agenda for such meetings will be agreed upon in advance. Visits which take place under the Arrangement, including their schedules, will have the prior approval of the two administrators referred to in paragraph II.b.

b. An administrator will be designated by each Party to coordinate its participation in the overall exchange. The administrators will be the recipients of all documents transmitted under the exchange, including copies of all letters unless otherwise agreed. Within the terms of the exchange, the administrators will be responsible for developing the

o določitvi jedrskega energetskih objektov v okviru izmenjave in o specifičnih dokumentih in standardih, ki se bodo izmenjali. Imenuje se lahko enega ali več tehničnih koordinatorjev za neposredne stike za specifična disciplinarna področja. Ti tehnični koordinatorji bodo zagotovili, da oba administratorja prejmeta kopije vseh posredovanih dokumentov. Namen teh podrobnih dogоворov je zagotoviti, med drugim, da se doseže in vzdržuje razumno uravnovešena izmenjava, ki nudi dostop do ustreznih razpoložljivih informacij.

c. Administratorja bosta določila število kopij dokumentov, ki se izmenjujejo. Vsak dokument bo opremljen z izvlečkom v angleščini z največ 250 besedami, ki opisuje predmet in vsebino.

d. Za uporabo ali rabo vseh informacij, izmenjanih ali prenesenih med obema pogodbenicama v okviru tega sporazuma, je odgovorna pogodbenica, ki sprejema informacije; pogodbenica, ki jih pošilja, ne jamči, da so te informacije primerne za katerokoli določeno rabo ali uporabo.

e. Ob upoštevanju dejstva, da pogodbenici nimata nekaterih informacij, ki jih zajema ta sporazum, imajo pa jih drugi vladni organi, bo vsaka pogodbenica v največji možni meri pomagala pri organiziraju obiskov in pošiljanju zahtev, ki se nanašajo na takšne informacije, ustreznim vladnim organom. Vendar zgoraj navedeno ne zavezuje teh organov, da zagotovijo take informacije ali sprejmejo take obiskovalce.

f. Nobena določba tega sporazuma ne zahteva od pogodbenic izvedbe kakršnegakoli ukrepa, ki ne bi bil v skladu z njeno veljavno zakonodajo, predpisi in programsko usmeritvijo. V okviru tega sporazuma ne bo nikakršne izmenjave jedrskej informacij, ki se nanašajo na širjenje občutljivih tehnologij. Če pride do kakršnekoli kolizije med določbami tega sporazuma ter takimi zakoni, predpisi in programsko usmeritvijo, se pogodbenici strinjata, da se posvetujeta, preden karkoli ukreneta.

g. Sodelovanje v okviru tega sporazuma bodo urejali zakoni in predpisi obeh držav. Kakršenkoli spor ali vprašanja med pogodbenicama v zvezi z razlago ali uporabo tega sporazuma, do katerih pride v času trajanja sporazuma, se urejajo s skupnim sporazumom obeh pogodbenic.

h. Če ni dogovorjeno drugače, je za vse stroške, ki nastanejo zaradi sodelovanja v okviru tega sporazuma, odgovorna pogodbenica, ki jih ustvari. Sposobnost pogodbenic, da izpolnjujejo svoje obveznosti, je odvisna od razdelitve sredstev s strani ustreznih vladnih organov ter zakonov in predpisov, veljavnih v pogodbenicah.

III. IZMENJAVA IN UPORABA INFORMACIJ

Pogodbenici podpirata kar največje možno širjenje informacij, posredovanih ali izmenjanih po določilih tega sporazuma, ob upoštevanju zahteve po varstvu pravno zaščitenih pravic ali drugih zaupnih ali zaščitenih informacij, ki so lahko predmet tega sporazuma, ter ob upoštevanju določil Dodatka o intelektualni lastnini, ki predstavlja sestavni del tega sporazuma.

a. Za namen tega sporazuma izraz "informacija" pomeni zakonodajne in varnostne podatke, podatke, ki se nanašajo na varovanje jedrskega materialov in ravnanje z odpadki, znanstvene ali tehnične podatke, rezultate ali metode raziskovanj in razvoja in druga dognanja s področja jedrske energije, ki bodo posredovani ali izmenjani v okviru tega sporazuma.

scope of the exchange, including agreement on the designation of the nuclear energy facilities subject to the exchange, and on specific documents and standards to be exchanged. One or more technical coordinators may be appointed as direct contacts for specific disciplinary areas. These technical coordinators will assure that both administrators receive copies of all transmittals. These detailed arrangements are intended to assure, among other things, that a reasonably balanced exchange giving access to equivalent available information is achieved and maintained.

c. The administrators will determine the number of copies to be provided of the documents exchanged. Each document will be accompanied by an abstract in English, 250 words or less, describing its scope and content.

d. The application or use of any information exchanged or transferred between parties under this Arrangement will be the responsibility of the receiving Party, and the transmitting Party does not warrant the suitability of such information for any particular use or application.

e. Recognizing that some information of the type covered in this Arrangement is not available within the agencies which are Parties to this Arrangement, but is available from other agencies of the governments of the Parties, each Party will assist the other to the maximum extent possible by organizing visits and directing inquiries concerning such information to appropriate agencies of the government concerned. The foregoing will not constitute a commitment of other agencies to furnish such information or to receive such visitors.

f. Nothing contained in this Arrangement will require either Party to take any action which would be inconsistent with its existing laws, regulations, and policy directives. No nuclear information related to proliferation-sensitive technologies will be exchanged under this Arrangement. Should any conflict arise between the terms of this Arrangement and those laws, regulations, and policy directives, the Parties agree to consult before any action is taken.

g. Cooperation under this Arrangement will be governed by the laws and regulations of the respective countries. Any dispute or questions between the Parties concerning the interpretation or application of this Arrangement arising during its term will be settled by mutual agreement of the Parties.

h. Unless otherwise agreed, all costs resulting from cooperation pursuant to the Arrangement will be the responsibility of the Party that incurs them. The ability of the Parties to carry out their obligations is subject to the appropriation of funds by the appropriate governmental authority and to laws and regulations applicable to the Parties.

III. EXCHANGE AND USE OF INFORMATION

The Parties support the widest possible dissemination of information provided or exchanged under this Arrangement, subject both to the need to protect proprietary or other confidential or privileged information as may be exchanged hereunder, and to the provisions of the Intellectual Property Addendum, which is an integral part of this Arrangement.

a. For the purposes of this Arrangement, the term "information" means nuclear energy-related regulatory, safety, safeguards, waste management, scientific, or technical data, results or methods of research and development, and any other knowledge intended to be provided or exchanged under this Arrangement.

b. Za namen tega sporazuma izraz "pravno zaščitena informacija" pomeni informacijo, ki je predmet tega sporazuma in je poslovna tajna ali druga zaščitena zaupna informacija (ki je takšna, da se lahko oseba, ki ima to informacijo, finančno okoristi z njo ali ima konkurenčno prednost pred tistim, ki take informacije nima) in lahko obsega samo informacijo:

- (1) ki jo kot zaupno poseduje lastnik;
- (2) ki jo navadno kot zaupno poseduje lastnik;
- (3) ki je lastnik ni posjal drugim osebam (vključno s prejemnikom), razen če se ne hrani kot zaupna;
- (4) ki prejemniku ni na razpolago iz drugega vira brez omejitev o nadaljnjem širjenju;
- (5) ki še ni v lasti prejemnika.

c. Za namen tega sporazuma izraz "druge zaupne ali zaščitene informacije" označuje informacijo zunaj kategorije pravno zaščitenih informacij, ki so zavarovane pred javnostjo po zakonih in predpisih države, ki takšne informacije zagotavlja, in ki so bile poslane in sprejete kot zaupni dokumenti.

d. Prejemnik dokumentarne pravno zaščitene informacije spoštuje v skladu s tem sporazumom njeno zaupno naravo, če je takšna pravno zaščitena informacija jasno označena z naslednjim (ali vsebinsko podobnimi) restriktivnim opozorilom:

Ta dokument vsebuje pravno zaščiteno informacijo, ki se pošilja kot zaupna v okviru sporazuma z dne 29. aprila 1999 med Jедrsko regulatorno komisijo ZDA in Upravo Republike Slovenije za jedrsko varnost, in je ne bodo širili zunaj teh organizacij, njunih konzultantov, pogodbenikov in imetnikov dovoljen ter državnih organov in organizacij v Sloveniji in ZDA brez predhodnega dovoljenja (ime pošiljalca informacije). To opozorilo bo navedeno na vsaki kopiji dokumenta ali njenem delu. Te omejitve samodejno prenehajo, ko lastnik razkrije informacijo brez kakršnihkoli omejitev.“

To restriktivno opozorilo bo upošteval prejemnik in pravno zaščitene informacije s takim opozorilom ne bo uporabil v komercialne namene, objavil v javnosti ali širil na kakršenkoli način, ki ni naveden ali je v nasprotju s pogoji tega sporazuma, brez odobritve pogodbenice pošiljateljice.

e. Načelno lahko pravno zaščiteno informacijo, prejeto v okviru tega sporazuma, prejemnik prosto posreduje brez predhodnega soglasja svojim zaposlenim ter pristojnim državnim organom in organizacijam v državi prejemnika.

f. Poleg tega se sme pravno zaščitena informacija brez predhodnega soglasja posredovati:

(1) pogodbenikom ali konzultantom prejemnika, ki se nahajajo znotraj zemljeplisnih meja države prejemnika. Uporaba teh informacij je omejena samo na dela, v okviru pogodbe s prejemnikom, ki se nanašajo na zadeve v zvezi s pravno zaščiteno informacijo ali drugo zaupno ali zaščiteno informacijo;

b. For the purposes of this Arrangement, the term "proprietary information" means information made available under this Arrangement which contains trade secrets or other privileged or confidential information (such that the person having the information may derive an economic benefit from it or may have a competitive advantage over those who do not have it), and may only include information which:

- (1) has been held in confidence by its owner;
- (2) is of a type which is customarily held in confidence by its owner;

(3) has not been transmitted by the owner to other entities (including the receiving Party) except on the basis that it be held in confidence;

(4) is not otherwise available to the receiving Party from another source without restrictions on its further dissemination; and

(5) is not already in the possession of the receiving Party.

c. For the purposes of this Arrangement, the term "other confidential or privileged information" means information, other than "proprietary information," which is protected from public disclosure under the laws and regulations of the country providing the information and which has been transmitted and received in confidence.

d. A Party receiving documentary proprietary information pursuant to this Arrangement will respect the privileged nature thereof, provided such proprietary information is clearly marked with the following (or substantially similar) restrictive legend:

This document contains proprietary information furnished in confidence under an Arrangement dated April 29, 1999 between the United States Nuclear Regulatory Commission and the Slovenian Nuclear Safety Administration and will not be disseminated outside these organizations, their consultants, contractors, and licensees, and concerned departments and agencies of the Government of the United States and the Government of Slovenia without the prior approval of (name of the transmitting Party). This notice will be marked on any reproduction hereof, in whole or in part. These limitations will automatically terminate when this information is disclosed by the owner without restrictions.

This restrictive legend will be respected by the receiving Party and proprietary information bearing this legend will not be used for commercial purposes, made public, or disseminated in any manner unspecified by or contrary to the terms of this Arrangement without the consent of the transmitting Party.

e. In general proprietary information received under this Arrangement may be freely disseminated by the receiving Party without prior consent to persons within or employed by the receiving Party, and to concerned Government departments and Government agencies in the country of the receiving Party.

f. In addition, proprietary information may be disseminated without prior consent

(1) to contractors or consultants of the receiving Party located within the geographical limits of that Party's nation, for use only within the scope of work of their contracts with the receiving Party in work relating to the subject matter of the proprietary or other confidential or privileged information;

(2) domaćim organizacijam, ki imajo odobritev ali dovoљenje pristojnega organa v državi prejemnika, da gradijo ali upravljajo naprave za proizvodnjo ali uporabo jedrske energije ali uporabljajo jedrske snovi ali vire sevanja, če se takšna pravno zaščitena informacija ali druga zaupna ali zaščitena informacija uporablja samo pod pogoji odobritve ali dovoljenja;

(3) pogodbenikom organizacij, ki so določene pod (2) zgoraj, za uporabo izključno pri delu v obsegu odobrite ali dovoljenja, danih tem organizacijam;

če se pravno zaščitena informacija pod točkami f (1), (2) in (3) zgoraj posreduje po potrebi od primera do primera, če je v skladu z zaupnim dogovorom in če je označena z restriktivnim opozorilom, vsebinsko podobnim sistemom, ki je naveden v točki d zgoraj.

g. Ob predhodnem pisnem soglasju pogodbenice, ki zagotavlja pravno zaščiteno informacijo v okviru tega sporazuma, lahko pogodbenica, ki prejme takšno informacijo, le-to širi v večji meri, kot dovoljujeta odstavka e in f. Pogodbenici bosta sodelovali pri izdelavi postopka za pošiljanje zahtev in pridobitev soglasja za takšno širjenje. Vsaka pogodbenica bo odobrila soglasje v mejah svojih nacionalnih usmeritev, predpisov in zakonov.

h. Prejemnik drugih zaupnih ali pravno zaščitenih informacij v okviru tega sporazuma bo upošteval njihov zaupni značaj, pod pogojem, da je takšna informacija jasno označena kot zaupne ali zaščitene narave in če jo spremlja izjava, ki opozarja:

(1) da so pristojni organi pogodbenice, ki pošilja informacijo, informacijo zavarovali pred javno objavo;

(2) da se informacija posreduje pod pogojem, da se ohrani kot zaupna.

i. Druge zaupne ali zaščitene informacije se smejo širiti tako, kot je navedeno v odstavku d zgoraj.

j. INTELLECTUAL PROPERTY ADDENDUM

Pursuant to Article III. of this Arrangement:

The Parties shall ensure adequate and effective protection of intellectual property created or furnished under this Arrangement and relevant implementing arrangements. The Parties agree to notify one another in a timely fashion of any inventions or copyrighted works arising under this Arrangement and to seek protection for such intellectual property in a timely fashion. Rights to such intellectual property shall be allocated as provided in this Addendum.

I. OBSEG

1. Ta dodatek se uporablja za vsa sodelovanja, ki se izvajajo v skladu s tem sporazumom, razen če se pogodbenici ali njuni predstavniki niso drugače posebej dogovorili.

2. Za namen tega sporazuma se pojem "intelektualna lastnina" uporablja tako, kot to določa 2. člen Konvencije o ustanovitvi Svetovne organizacije za intelektualno lastnino, ki je bila podpisana 14. julija 1967 v Stockholmumu. Taka "intelektualna lastnina" vsebuje pravice, ki se nanašajo na:

- književna, umetniška in znanstvena dela,
- umetniške nastope, zvočne zapise in prenose,
- izume iz vseh področij človekove dejavnosti,
- znanstvena odkritja,
- industrijsko oblikovanje,
- zaščitne znamke, imena firm in njihove označbe,
- zaščito pred nelojalno konkurenco

in vse druge pravice, ki izvirajo iz intelektualnih dejavnosti na področju industrije, znanosti, književnosti in umetnosti.

3. Ta dodatek se nanaša na dodelitev pravic, koristi in licenc med pogodbenicama. Vsaka pogodbenica zagotovi, da si lahko druga pogodbenica pridobi pravice iz naslova intelektualne lastnine v skladu s tem dodatkom tako, da pridobi te pravice od svojih udeležencev po tem sporazumu ali, če je to potrebno, na drug zakonit način. Ta dodatek sicer ne spreminja oziroma prejudicira dodelitve pravic iz naslova intelektualne lastnine, kot so urejene med pogodbenicama tega sporazuma oziroma njunimi državljeni po njuni notranji zakonodaji oziroma praksi.

4. Spori, ki se nanašajo na intelektualno lastnino in izvirajo iz tega sporazuma, naj se rešujejo preko dogovorov med sodelujočimi ustanovami, po potrebi pa med pogodbenicama tega sporazuma oziroma njunimi predstavniki. Na podlagi skupnega sporazuma pogodbenic je treba spor predložiti arbitražnemu sodišču, ki s svojo razsodbo, sprejetjo po pravilih mednarodnega prava, zavezuje obe pogodbenici. Razen če se pogodbenici ali njuni predstavniki pisno ne dogovorijo drugače, veljajo arbitražna pravila Komisije Združenih narodov o notranje-trgovinskem zakonu (UNCITRAL).

5. Odpoved ali prenehanje tega sporazuma ne vpliva na pravice ali dolžnosti v okviru tega dodatka.

II. DODELITEV PRAVIC

1. Vsaka pogodbenica bo upravičena do neekskluzivne, nepreklicne, in brezplačne licence v vseh državah za prevajanje, reproduciranje in javno širjenje znanstvenih in tehničnih člankov v revijah, poročilih in knjigah, ki izvirajo neposredno iz sodelovanja v okviru tega sporazuma. V vseh javno razširjenih kopijah del z avtorsko pravico, ki so izdelane v skladu s to določbo, so navedena imena avtorjev del, razen če avtor izrecno odkloni, da bi bil imenovan.

2. Pravice do vseh oblik intelektualne lastnine, razen tistih, ki so opisane v odstavku II. 1. zgoraj, so dodeljene kot sledi:

a. Gostujuči raziskovalci, na primer znanstveniki, ki gostujejo predvsem zaradi dodatnega izobraževanja, dobijo pravice intelektualne lastnine v obsegu, kot jo prizna spremenna ustanova. Poleg tega pa je vsak gostujuči raziskovalec upravičen do deleža pri honorarju, ki ga sprejemna ustanova zasluži iz naslova takšne intelektualne lastnine.

b. (1) Za intelektualno lastnino, ki je ustvarjena pri skupnihraziskavah, na primer ko se pogodbenici tega sporazuma, sodeljujoče ustanove ali njihovo osebje vnaprej do-

I. SCOPE

1. This Addendum is applicable to all cooperative activities undertaken pursuant to this Arrangement, except as otherwise specifically agreed by the Parties or their designees.

2. For purposes of this Arrangement, "intellectual property" shall have the meaning found in Article 2 of the Convention Establishing the World Intellectual Property Organization, done at Stockholm, July 14, 1967; *viz.*, "intellectual property" shall include the rights relating to:

- literary, artistic and scientific works,
 - performances of artists, phonograms, and broadcasts,
 - inventions in all fields of human endeavor,
 - scientific discoveries,
 - industrial designs,
 - trademarks, service marks, and commercial names and designations,
 - protection against unfair competition,
- and all other rights resulting from intellectual activity in the industrial, scientific, literary, or artistic fields."

3. This Addendum addresses the allocation of rights, interests, and royalties between the Parties. Each Party shall ensure that the other Party can obtain rights to intellectual property allocated in accordance with the Addendum by obtaining those rights from its own participants through contracts or other legal means, if necessary. This Addendum does not otherwise alter or prejudice the allocation between a Party and its nationals, which shall be determined by that Party's laws and practices.

4. Disputes concerning intellectual property arising under this Arrangement should be resolved through discussions between the concerned participating institutions or, if necessary, the Parties or their designees. Upon mutual agreement of the Parties, a dispute shall be submitted to an arbitral tribunal for binding arbitration in accordance with the applicable rules of international law. Unless the Parties or their designees agree otherwise in writing, the arbitration rules of the United Nations Commission on International Trade Law (UNCITRAL) shall govern.

5. Termination or expiration of this Arrangement shall not affect rights or obligations under this Addendum.

II. ALLOCATION OF RIGHTS

1. Each party shall be entitled to a non-exclusive, irrevocable, royalty-free license in all countries to translate, reproduce, and publicly distribute scientific and technical journal articles, reports, and books directly arising from cooperation under this Arrangement. All publicly distributed copies of copyrighted work prepared under this provision shall indicate the names of the authors of the work unless an author explicitly declines to be named.

2. Rights to all forms of intellectual property, other than those rights described in Section II.1., above, shall be allocated as follows:

a. Visiting researchers, for example, scientists visiting primarily in furtherance of their education, shall receive intellectual property rights under the policies of the host institution. In addition, each visiting researcher named as an inventor shall be entitled to share in a portion of any royalties earned by the host institution from the licensing of such intellectual property.

b. (1) For intellectual property created during joint research, for example, when the Parties, participating institutions, or participating personnel have agreed in advance on

govorijo o obsegu dela, je vsaka pogodbenica upravičena, da pridobi vse pravice in koristi v lastni državi. Pogodbenica, v katere državi pride do izuma, ima prva možnost pridobiti vse pravice in koristi v tretjih državah. Če raziskovanje ni opredeljeno kot "skupno raziskovanje", bodo pravice do intelektualne lastnine, ki izvirajo iz raziskovanja, dodeljene v skladu z odstavkom II.2.a zgoraj. Poleg tega je vsaka oseba, ki je imenovana za izumitelja, upravičena do deleža pri honorarju, ki ga pridobi katerakoli stran iz naslova intelektualne lastnine.

(2) Če je vrsta intelektualne lastnine dostopna skladno z zakoni ene pogodbenice, ne pa druge, bo ne glede na točko II.2.b.(1) zgoraj pogodbenica, katere zakoni ščitijo takšno lastnino, upravičena do vseh pravic in koristi po vsem svetu. Osebe, ki so označene kot izumitelji te lastnine, so vendarle upravičene do licenc, kot je to določeno v točki II.2.b.(1)zgoraj.

the scope of work, each Party shall be entitled to obtain all rights and interests in its own country. The Party in whose country the invention was made shall have first option to acquire all rights and interests in third countries. If research is not designated as "joint research," rights to intellectual property arising from the research will be allocated in accordance with paragraph II.2.a., above. In addition, each person named as an inventor shall be entitled to share in a portion of any royalties earned by either institution from the licensing of the property.

(2) Notwithstanding paragraph II.2.b. (1), above, if a type of intellectual property is available under the laws of one Party but not of the other Party, the Party whose laws provide for this type of protection shall be entitled to all rights and interests worldwide. Persons named as inventors of the property shall nonetheless be entitled to royalties as provided in paragraph II.2.b. (1), above.

1. INTRODUCTION

1.1 The Ministry of Defence of the Republic of Slovenia as represented by the Minister of Defence and the Ministry of Defence of the United Kingdom of Great Britain and Northern Ireland as represented by the Secretary of State for Defence hereinafter jointly referred to as "the Participants",

recognising it would be to their mutual advantage to strengthen relations;

wishing to strengthen their defence capabilities through defence materiel collaboration and co-operation in the development and supply of defence equipment;

wishing to co-operate in defence materiel requirements; and

wishing to co-operate in the fields of logistic support and technical information;

have reached the following understandings:

a. da bosta skušali olajšati dobavo obrambne opreme in storitev kateri koli od pogodbenic;

b. da bosta pospeševali sodelovanje in krepili skupni razvoj in dobavo vojaške opreme za zadovoljevanje skupnih ali podobnih potreb;

c. da bosta določili skupne dejavnosti za uresničevanje načel standardizacije in interoperabilnosti v korist pogodbenic, in

d. da bosta zagotavljali medsebojno podporo s spodbujanjem in olajševanjem izmenjave vojaških tehničnih in z opremo povezanih informacij, tehničnih sredstev inosebja.

2. CILJI IN OBSEG

2.1 Pogodbenici bosta skušali olajšati ustrezno in učinkovito dobavo vojaške opreme in storitev med svojima državama, če bodo to omogočali mednarodni in državni zakoni in predpisi.

2.2 Kadar bo primerno, bosta pogodbenici skupaj predvideli zagotovitev informacij o bližnjih priložnostih za posredovanje ponudb in o predlaganih pogodbah v časovnem roku, ki bo zainteresiranim družbam omogočal, da dobijo izvode tenderske dokumentacije, potrebine za izdelavo in predložitev njihovih ponudb. Tako zagotovljene informacije so namenjene glavnim dobaviteljem in proizvajalcem podsklopov, podsistemu in komponent. V Združenem kraljestvu so te običajno vsebovane v biltenu MO o pogodbah. V Sloveniji so te vsebovane v uradnem glasilu Republike Slovenije.

2.3 Pogodbenici načrtujeta, da bodo za ponudbe in pogodbe veljali običajna pravila in postopki o nabavah pogodbenice, ki je kupec; da bo ponudbam zagotovljena celovita in nepristranska obravnava ne glede na državo, iz katere dobavitelj izvira; in da bo, kadar ponudba kake družbe v drugi državi ne bo sprejeta, če ta družba meni, da je bila njena ponudba zavrnjena brez utemeljenega vzroka, pogodbenica, ki je kupec, na zahtevo obvestila drugo pogodbenico o razlogih za tako odločitev.

2.4 Dejavnosti sodelovanja po tem MOS lahko obsegajo kateri koli vidik sodelovanja na področju vojaške tehničke, ki je v obojestranskem interesu, vključno med drugim:

a. določitev in periodičen pregled posebnih potreb glede skupne opreme oboroženih sil obeh pogodbenic in obsega, v katerem se je mogoče razvijanja projektov v zvezi z vojaško opremo lotevati skupaj;

b. ugotavljanje možnosti sodelovanja pri nakupu opreme za zadovoljitev skupnih potreb oboroženih sil obeh pogodbenic, vključno z logistično podporo za opremo, ki je nabavljena skupaj, če je skupna pogodbenicama;

c. vzajemno pomoč pri tehničnem ocenjevanju, prekušanju karakteristik in delovanja, pri razvoju operativnih in vzdrževalnih konceptov, pri sklepanju pogodbenih dogovorov z glavnimi dobavitelji in pri organizaciji podpore za opremo v uporabi med njeno življenjsko dobo;

d. organizacijo dvostranskih konferenc in simpozijev o tekočih ali prihodnjih programih v zvezi z opremo;

e. izmenjavo informacij in zagotovitev storitev za zagotavljanje kakovosti.

2.5 Ta MOS opredeljuje splošna načela sodelovanja pri posebnih projektih. Ko je določena neka posebna oblika sodelovanja, bo sklenjen izvedbeni dogovor v skladu s tem MOS, v katerem bodo opredeljeni smotri naloge; agencija, ki jo to najbolj zadeva, in organi, povezani s projektom; pravice iz intelektualne lastnine in stopnja zaupnosti tehničnih podatkov; delež stroškov in drugi morebitni finančni dogovori; dogovori in postopki glede revizij; pogodbeni dogovori; odgovornost; pogostnost in vrste poročil, ki jih je treba predložiti; in druge določbe, ki bi bile lahko potrebne.

a. to seek to facilitate the supply of defence equipment and services to either of the Participants;

b. to promote co-operation and foster joint development and procurement of defence equipment to meet common or similar requirements;

c. to identify joint activities which would serve the principles of standardisation and interoperability to the benefit of the Participants; and

d. to provide mutual support by encouraging and facilitating the exchange of defence technical and equipment related information, materiel and personnel.

2. OBJECTIVES AND SCOPE

2.1 The Participants will seek to facilitate the fair and efficient supply of defence equipment and services between their two countries as far as international and national laws and regulations permit.

2.2 The Participants will jointly determine, where appropriate, to provide information about forthcoming bid opportunities and proposed contracts in a timescale that will enable interested companies to obtain copies of the tender documents necessary for the preparation and submission of their bids. The information so provided will be intended both for prime contractors and manufacturers of sub-assemblies, sub-systems and components. In the case of the United Kingdom this will normally be contained in the MOD Contracts Bulletin. In the case of Slovenia this will be contained in the Official Bulletin of the Republic of Slovenia.

2.3 The Participants intend that bids and contracts will be subject to the normal procurement rules and procedures of the purchasing Participant; that bids will be given full and impartial consideration regardless of the country of origin of the supplier; and that where a bid from a company in the other country is not accepted then, if that company feels that its bid was rejected without reasonable cause, the purchasing Participant will, on request, inform the other Participant of the reasons for the decision.

2.4 The scope of co-operative activities under this MOU may include any aspect of defence materiel co-operation of mutual interest, including but not limited to:

a. the determination and periodic review of the specific common equipment requirements of the Armed Forces of both Participants and the extent to which development of defence equipment projects may be undertaken jointly;

b. identification of possible collaboration in the purchase of equipment to meet common requirements of the Armed Forces of each Participant including logistics support of equipment procured jointly if common to both Participants;

c. mutual assistance in technical evaluations, test and trials, in developing operational and maintenance concepts, in reaching contractual understandings with prime contractors and organising life cycle support for equipment in-service;

d. organisation of bilateral conferences and symposia on current or future equipment programmes;

e. the exchange of information and the provision of quality assurance services.

2.5 This MOU defines the general principles of co-operation on specific projects. When a specific form of co-operation is identified an Implementing Arrangement will be concluded pursuant to this MOU which will define task objectives; agency of primary interest and project authorities; intellectual property rights and the degree of classification of technical data; cost share and any other financial arrangements; audit arrangements and procedures; contractual arrangements; liability; the frequency and types of reports to be submitted; and other provisions that may be required.

3. UPRAVLJALSKA ORGANIZACIJA

3.1 Za pomoč pri teh dogovorih bosta pogodbenici ustanovili mešani odbor, ki bo nadzoroval napredek, narejen po tem sporazumu. Mešani odbor se sestaja vsako leto izmenoma v Združenem kraljestvu in Sloveniji. Pogodbenica gostiteljica je predsedujoča in preskrbi administrativno pomoč. Pogodbenici imata vsaka po en glas in sprejemata odločitve soglasno.

3.2 Predsedujoči mešanega odbora s strani Združenega kraljestva bo območni direktor trženja 4., člane pa imenuje Ministrstvo za obrambo Združenega kraljestva. Predsedujoči mešanega odbora s slovenske strani bo predstojnik notranje organizacijske enote Ministrstva za obrambo Republike Slovenije, ki je pristojna za oborožitev, člane pa imenuje Ministrstvo za obrambo Republike Slovenije.

Po dodelitvi pogodb bo vsako MO na zahtevo in ob upoštevanju razpoložljivih virov zagotovilo drugemu MO enako storitev za zagotavljanje kakovosti, kot se uporablja za nakupe, opravljene znotraj njegove države, v skladu z Dodatkom A.

5. VARNOST IN OBISKI

5.1 Kadar je pri programih, izdelanih na podlagi tega MOS, potrebno izmenjati zaupne informacije, se dogovori glede izmenjave in varovanja takih informacij določijo za vsak primer posebej in podrobno opredelijo v pripadajočem izvedbenem dogovoru.

6. ZAHTEVKI IN OBVEZNOSTI

6.1 Brez škode za kakršne koli posebne dogovore v katerem koli izvedbenem dogovoru k temu MOS, se vsaka pogodbenica odreka vsakršnemu zahtevku do druge pogodbenice ali do katerega koli vojaka, uslužbenca ali zastopnika druge pogodbenice za poškodbo (vključno poškodbo, katere posledica je smrt), ki jo utripi njen vojaško osebje, uslužbenec ali zastopnik, ali za škodo na imetju v njeni lasti ali izgubo leta, če je bila taka poškodba, smrt, škoda ali izguba povzročena z dejanji ali opustitvami druge pogodbenice ali katerega koli vojaka, uslužbenca ali zastopnika te druge pogodbenice med opravljanjem uradnih dolžnosti v zvezi s tem MOS.

6.2 Vsaka pogodbenica bo obravnavala in poravnala na svoje stroške odškodninske zahtevke katere koli tretje osebe, ki izhajajo iz njenih lastnih dejanj ali opustitev oziroma dejanj ali opustitev njenih vojakov, uslužencev ali zastopnikov, katerih posledica je poškodba, smrt, izguba ali škoda, povzročena pri opravljanju uradnih dolžnosti v zvezi s tem MOS.

4.1 Each MOD will inform the other MOD whether their international manufacturers/suppliers conform to the quality control standards to which such suppliers are cleared for defence equipment or related services adopted by their own nation. Following the letting of contracts, each MOD will, on request and subject to available resources, provide a Quality Assurance service to the other MOD equivalent to that applied to purchases made within their own nation, in accordance with Annex A.

5. SECURITY AND VISITS

5.1 Where programmes, developed under this MOU necessitate the exchange of classified information, arrangements for the exchange and safeguarding of such information will be determined on a case by case basis and detailed in an associated Implementing Arrangement.

6. CLAIMS AND LIABILITIES

6.1 Without prejudice to any specific arrangements in any Implementing Arrangement to this MOU, each Participant waives any claim it may have against the other Participant or any serviceman, servant or agent of the other Participant for injury (including injury resulting in death) suffered by its service personnel, servants or agents or for damage to or loss of property owned by it if such injury, death, damage or loss was caused by the acts or omissions of the other Participant or any such serviceman, servant or agent of that other Participant in the performance of official duties in connection with this MOU.

6.2 Each Participant will deal with and settle, at its own cost, any third party claims arising from its own acts or omissions or those of its servicemen, servants or agents which result in injury, death, loss or damage done in the performance of official duties in connection with this MOU.

7. UPORABA IN RAZKRIVANJE INFORMACIJ

7.1 Ker priznava poslovno vrednost informacij, bo pogodbenica, ki prejme kakršne koli informacije, kar vključuje dokumente, tehnologijo ali tehniko, bodisi da zanje velja ali ne velja zaščita avtorskih pravic, patentnih pravic, registriranih ali neregistriranih modelov, ali podobna zaščita, zagotovila, da se nobene informacije, preskrbljene na podlagi tega MOS, ne bodo uporabljale ali razkrivale za kakršen koli drug namen razen tistega, za katerega so bile zagotovljene, brez pristanka pogodbenice, od katere izvirajo, in da bo takim informacijam dodeljena popolna pravna zaščita, ki je na razpolago. V odsotnosti posebnih navodil glede uporabe, bo pogodbenica prejemnica zavarovala informacije na podlagi tega, da so bile preskrbljene le v informativne namene in jih ni mogoče razkrivati zunaj vladnih krogov prejemnice.

7.2 Če lastnik informacij, zagotovljenih po tem MOS, utripi izgubo ali škodo zaradi nepooblaščenega razkritja ali uporabe informacij bodisi s strani pogodbenice ali kakre tretje osebe, kateri je pogodbenica prejemnica razkrila informacije, bo pogodbenica prejemnica povrnila odškodnino lastniku informacij za nepooblaščeno razkritje ali uporabo. Pri določanju odgovornosti za povračilo odškodnine se predpostavlja, da je informacije pogodbenici prejemnici preskrbel neposredno lastnik in da je nepooblaščeno uporabo zagrešila pogodbenica prejemnica.

7.3 Odškodnina, ki jo plača pogodbenica prejemnica v skladu z razdelkom 7.2, ne preprečuje lastniku informacij, da uveljavlja svoje zakonske pravice do osebe ali oseb, ki so brez pooblastila razkrile ali zlorabile informacije, vendar pa se vsakršna odškodnina, pridobljena z uveljavljanjem teh pravic, uporabi za pobotanje morebitnega plačila, ki ga je z enakim namenom že opravila pogodbenica prejemnica.

7.4 Pogodbenica prejemnica ne bo posredovala, prodajala ali razkrivala osebi z državljanstvom države, ki ni pogodbenica v tem MOS, oziroma nobeni mednarodni organizaciji informacij, dokumentov, tehnologije ali tehnične, bodisi da je zaupna ali ne, ki je preskrbljena po tem MOS, prav tako pa ne bo javno razkrivala takih informacij, bodisi da so zaupne ali ne, brez predhodnega pisnega dovoljenja pogodbenice, od katere te izvirajo.

7.5 Vsaka pogodbenica bo sprejela vse zakonite ukrepe, ki so na razpolago, da bi informacije, prejete ali izdelane zaupno po tem MOS, obvarovala pred razkritjem v skladu s kakršnim koli zakonodajnim ukrepom, razen če druga pogodbenica ne pristane na tako razkritje. Če postane verjetno, da bo informacije morda treba razkriti na podlagi takega ukrepa, je treba o tem takoj obvestiti drugo pogodbenico.

7.6 Da bi pomagala pri zagotavljanju željene zaščite, bo vsaka pogodbenica označila informacije, ki jih zaupno preskrbi drugi, z legendo, kjer bodo označeni država izvora, stopnja zaupnosti, pogoji glede objave in dejstvo, da je informacija zagotovljena zaupno.

7.7 Odgovornosti glede zaupnosti, ki se v tem razdelku zahtevajo od pogodbenice, ki je prejemnica, ne veljajo za informacije, ki:

- a. so ali pridejo zakonito v posest pogodbenice, ki je prejemnica, brez ustreznih omejitvev, ali
- b. so ali pridejo v domeno javnosti brez kršenja tega MOS in so dane na razpolago za neomejeno uporabo.

7.8 Posebni dogovori o zaščiti intelektualne lastnine v zvezi s projektmi in programi, ki potekajo po tem MOS, se vključijo v ustrezne izvedbene dogovore, predvidene v skladu z razdelkom 2.5.

7. USE AND DISCLOSURE OF INFORMATION

7.1 Recognising the commercial value of information, the recipient Participant of any information which includes documents, technology or materiel, whether or not the subject of copyright, patent, registered or unregistered designs or like protection, will ensure that any information supplied under this MOU is not used or disclosed for any purpose other than that for which it was provided, without the consent of the originating Participant, and that such information is afforded the full measure of legal protection available. In the absence of specific instructions for use the recipient Participant will protect the information on the basis that it has been supplied for information purposes only and may not be disclosed outside the recipient's Government circles.

7.2 If the owner of the information supplied under this MOU suffers loss or damage through the unauthorised disclosure or use of the information either by the recipient Participant or by a third party to whom the recipient Participant has disclosed the information, then the recipient Participant will compensate the owner of the information for the unauthorised disclosure or use. In determining the liability for compensation, it will be assumed that the information was supplied directly by the owner to the recipient Participant and the unauthorised use was made by the recipient Participant.

7.3 The payment by the recipient Participant of compensation under sub-section 7.2 will not prevent the owner of the information from exercising his legal rights against the person or persons who have, without authority, disclosed or misused the information, but any compensation recovered by exercising these rights will be used to offset any payment already made by the recipient Participant for the same purpose.

7.4 The recipient Participant will not pass, sell or disclose to a person holding the nationality of any nation which is not a Participant of this MOU, or to any international organisation, any information, documents, technology or materiel, whether classified or not, supplied under this MOU, nor will he publicly disclose any such information, whether classified or not, without the prior written permission of the originating Participant.

7.5 Each Participant will take all lawful steps available to keep information received or generated in confidence under this MOU free from disclosure under any legislative provision, unless the other Participant consents to such disclosure. If it becomes probable that information may have to be disclosed under such provision, immediate notification will be given to the other Participant.

7.6 To assist in providing the desired protection, each Participant will mark information provided to the other in confidence with a legend indicating the country of origin, the security classification, the conditions of release and the fact that the information is provided in confidence.

7.7 The responsibilities of confidentiality on a recipient Participant required by this section will not apply to information which:

- a. is, or becomes, rightfully into the possession of the recipient Participant without relevant restrictions; or
- b. is in, or enters, the public domain without breach of this MOU and is made available for unrestricted use.

7.8 Specific arrangements for the protection of intellectual property associated with projects and programmes pursued under this MOU will be included in the relevant Implementing Arrangements raised in accordance with Section 2.5.

8. FINANČNE ZADEVE

8.1 Ta MOS ne nalaga nobeni pogodbenici nikakršnih finančnih obveznosti, razen da je vsaka pogodbenica odgovorna za svoje stroške, ki jih utripi pri izvajjanju tega MOS. O posebnih dogovorih glede delitve stroškov v zvezi s programi sodelovanja bo sporazum sklenjen kot del vsakršnega izvedbenega dogovora, ki bi bil oblikovan v skladu s tem MOS.

9. SPORI

9.1 Morebitne spore glede razlage in uporabe tega MOS rešujeta pogodbenici s posvetovanji in ne bodo poslani v reševanje nobenemu državnemu ali mednarodnemu razsodišču ali kaki tretji osebi.

10. PREKINITEV, SPREMINJANJE IN TRAJANJE

10.1 Ta MOS začne veljati, ko slovenska stran obvesti britansko, da so na slovenski strani izpolnjeni vsi pogoji za njegovo uveljavitev, in velja deset let od tega datuma. Mogoče ga je podaljšati za podobna obdobja ali za obdobja, ki so v določenem trenutku zaželena, ali pa ga je mogoče prekiniti s skupnim pisnim pristankom obeh pogodbenic.

10.2 Če želi katera koli pogodbenica prekiniti svojo udeležbo v teh dogovorih, mora 90 dni pred datumom, ko začne veljati prekinitev, pisno obvestiti drugo pogodbenico.

10.3 Ne glede na določbe razdelka 10.2 pa odpoved tega MOS ne vpliva na morebitne pogodbe, ki spadajo v okvir tega MOS, in te veljajo naprej do ustrezne izpolnitve z izvedbo.

10.4 Pravice in odgovornosti pogodbenic glede varnosti in obiskov (razdelek 5); uporabe in razkrivanja informacij (razdelek 7); sporov (razdelek 9) in prekinitev, spremicanja in trajanja, umika in podpisa (razdelek 10) ostanejo veljavne ne glede na morebiten umik, prekinitev ali pretek tega MOS.

10.5 Ta MOS je mogoče spremeniti s skupnim pisnim pristankom obeh pogodbenic.

1. Uvod

1.1 Splošno

1.1.1 Določbe tega dodatka veljajo za zagotavljanje kakovosti s strani vlade (ZK-V) za vojaška tehnična sredstva in storitve, ki se dobavljajo za oborožene sile udeleženih strank in jih dobavi agencija ali dobavitelj.

1.1.2 Organ države nakupovalke, ki vloži prošnjo (predlagatelj), da zahtevek za ZK-V, da bi dobil potrditev, da je organ, ki je dobavitelj (pooblaščenec), sposoben izvajati ZK-V v skladu s postopki, vsebovanimi v tem dodatku.

2. Obseg

2.1 Ta dokument zagotavlja napotke za pooblaščanje in sprejemanje v zvezi z ZK-V na podlagi dogovorov iz MOS in določa elemente načrtovanja in izvajanja dejavnosti nadzora. Opisuje odgovornosti predlagateljev za ugotavljanje tveganj v zvezi s kakovostjo in podrobno opisovanje pripadajočih nalog, ki bodo vključene v zahtevek za zagotavljanje kakovosti s strani vlade (ustrezen obrazec ZahtZK je prikazan v Prilogi 1 k temu dodatku).

3. Referenčni dokumenti

3.1 V nadaljevanju so navedeni dokumenti, ki se nanašajo na ta dodatek:

- ISO-8402: "Obvladovanje kakovosti in zagotavljanje kakovosti – besednjak"
- AQAP-100: "Splošna navodila NATO za zagotavljanje kakovosti"

4 Določanje nalog v zvezi z nadzorom ZK-V

4.1 Predlagatelj formalno določi naloge za pooblaščenca na podlagi rezultatov analize tveganja. Formalno sprejetje, dopolnjevanje in izpolnitve "nalog" je treba evidentirati. Pooblaščenec naj naredi načrt uporabe ukrepov za ZK-V, da prepriča predlagatelja o izpolnjevanju zahtev glede naloženih nalog, in naj zagotovi vzpostavitev in vodenje evidence, ki kaže na dejavnosti na področju ZK-V.

4.2 Bistveno je, da je med ciklusom dobave, kakor hitro je mogoče, vzpostavljena učinkovita komunikacija med predlagateljem in pooblaščencem. Kadar zahtevanih ukrepov ZK-V ni mogoče izvesti, mora pooblaščenec formalno obvestiti predlagatelja in hkrati navesti razloge za zavrnitev zahtevka.

4.3 Opis nalog je treba dopolnjevati hkrati s spreminjaanjem pogodbenih zahtev in formalno obveščati pooblaščenca. Če je zaradi nujnosti pooblaščenec zaprošen, da se ravna po ustnih navodilih, mora predlagatelj vseeno zahtevk poslati pisno/po telefaksu prek osrednjega državnega organa za ZK-V (glej adresi pod 7.2.4), ki pooblaščenca ustrezno obvesti.

Tasks

The Risk based activities, which should be performed by the QAR with respect to the RGQA.

1. Introduction

1.1 General

1.1.1 The provisions of this Annex are applicable to the Government Quality Assurance (GQA) of Defence materiel and services which are procured for the Armed Forces of the Participants, which are to be supplied by an agency or contractor.

1.1.2 The requesting authority of the purchasing nation (Delegator) will initiate a GQA request in order to seek confirmation that the supplying authority (Delegatee) is able to perform GQA in accordance with procedures embodied in this Annex.

2. Scope

2.1 This document provides guidance for the delegation and acceptance of GQA under the arrangements of the MOU, and identifies the elements involved in planning and implementing surveillance activities. It describes the Delegators responsibilities to identify quality Risks and to detail related "Tasks" for inclusion in the Request for Government Quality Assurance (a suitable RGQA form is shown at Appendix 1 to this Annex).

4. Tasking of GQA Surveillance

4.1 The Delegator will formally "Task" the Delegatee based on the results of Risk analysis. Formal acceptance, amendment and completion of the "Task" must be recorded. The Delegatee should plan for apply GQA actions to assure the Delegator that the Tasking requirements have been met and ensure records reflecting the GQA activity are established and maintained.

4.2 It is essential that effective communication is established between the Delegator and Delegatee as early as possible in the procurement cycle. When the requested GQA actions cannot be accomplished, the Delegatee should formally notify the Delegator, together with recorded reasons for non-acceptance.

4.3 The Task description must be updated as the contract requirements change, and the Delegatee formally advised. If due to urgency the Delegatee is requested to follow verbal instructions, the Delegator will still process the request in writing/fax through the National GQA Focal Point (see addresses at 7.2.4) who will advise the Delegatee accordingly.

5. Obveščanje

5.1 S predlagateljem se je treba posvetovati, ali kak dogodek po ocenah pomembno vpliva na kakovost izdelka. Pooblaščenec preskrbi izvode potrebnih poročil o poteku ZK-V, treba pa ga je obveščati o pripadajoči korespondenci med predlagateljem in dobaviteljem.

6. O tveganju

6.1 Splošno

6.1.1 ZK-V se v državi dobaviteljici zahteva le, kadar kakovosti ob prejemu ni mogoče zadovoljivo preveriti in kadar so ugotovljena področja tveganja v zvezi s proizvodom ali dobaviteljem. Predlagatelj mora ugotoviti, ali bi ZK-V odpravilo ali zmanjšalo ugotovljeno tveganje in v kakšnem obsegu. ZK-V na izvoru se ne zahteva za postavke z majhnim tveganjem, preproste, komercialne postavke ali postavke majhne vrednosti.

6.1.2 Oceno tveganja je treba opraviti v skladu s postopki ustrezne države.

6.1.3 Napotki glede ocene tveganja so navedeni v Prilogi 2.

7. Smernice za predlagatelja

7.1 Priprava

7.1.1 Splošno

7.1.1.1 Če je po oceni tveganja potrebno ZK-V pri izvoru, se mora predlagatelj prepričati, da so bili izpolnjeni vsi navedeni temeljni pogoji:

- preveriti, da pogodba in pripadajoči dokumenti predvidevajo izvedbo ZK-V, vključno s pravico ZastZK do dostopa v prostore dobaviteljev in ustreznih podizvajalcev. Ti dokumenti naj bodo na razpolago pooblaščencu v jeziku, za katerega se dogovorita vpletjeni stranki;

- preveriti, da je bila zahteva o ustreznom sistemu kakovosti, kot je opisan v AQAP-100, vnesena v pogodbo;

- preveriti, da so bile potrebne določbe o stroških za material, porabljen pri ZK-V, ali o drugih večjih stroških vnesene v pogodbo ali druge ustrezne dogovore;

- preveriti, da so bili dogovori o dovoljenjih za odstopanja in izzetjih vneseni v pogodbo;

- preveriti, da je bila določba o zagotavljanju kakovosti vnesena v pogodbo.

Opomba: Primer ustrezne določbe je: "Za vse zahteve iz te pogodbe velja ZK-V, ki zadovoljuje ali pooblaščenega zastopnika, ki vas bo obvestil o ukrepu ZK-V, ki naj bi bil izveden."

7.1.1.2 Vsakršen korektivni ukrep, ki izhaja iz zgoraj navedenega, je treba izvesti pred formalnim zahtevkom za ZK-V.

7.2 Pooblastitev

7.2.1 Po opravljenem predhodnem delu predlagatelj izpolni zahtevek za zagotavljanje kakovosti s strani vlade (ZahtZK) in ga pošlje skupaj s potrebno pogodbeno dokumentacijo pooblaščencu.

7.2.2 Predlagatelj mora pravočasno preskrbeti pooblaščencu vse potrebne informacije, da omogoči pooblaščencu načrtovanje, pripravo in izvedbo predvidenega ZK-V. Naloge morajo temeljiti na oceni in ovrednotenju tveganja in jih morata skupaj določiti predlagatelj in pooblaščenec. Podrobним navodilom se je treba izogibati, razen če so značilna za določen postopek in potrebna za zagotovitev kakovosti.

7.2.3 Dovoljenja za odstopanja in izzetja

7.2.3.1 Dokument z navedbo nalog (ZahtZK) mora vsebovati jasna in podrobna navodila za pooblaščenca glede obdelave prošenj za dovoljenja za odstopanja in izzetja.

5. Communications

5.1 The Delegator should be consulted when any arising is judged to have a significant affect on the quality of the product. The Delegatee will provide copies of any GQA progress reports required, and should be informed of relevant correspondence between the Delegator and the contractor.

6. Risk Considerations

6.1 General

6.1.1 GQA in the supplying country will be requested only when quality cannot be satisfactorily verified upon receipt, and where areas of Risk associated with the product or the contractor have been identified. The Delegator should establish whether GQA would eliminate or reduce the identified Risk, and to what extent. GQA at source, of low Risk, simple, commercial or low value items, shall not be Tasked.

6.1.2 Risk evaluation is to be conducted in accordance with National Practices.

6.1.3 Guidances on Risk Evaluation is provided at Appendix 2.

7. Guidelines for Delegator

7.1 Preparation.

7.1.1 General

7.1.1.1 Following Risk assessment, if GQA at source is required the Delegator should then ascertain that all the following prerequisites have been met:

- determine that the contract and related documents provide for the conduct of GQA including the QAR's right of access at the contractors and relevant sub-contractors premises. These documents should be available to the Delegatee in a language agreed by the concerned parties;

- determine the appropriate Quality System requirement, as described in AQAP-100, has been incorporated in the contract;

- determine that necessary stipulations for expenses for material expended in GQA or for other heavy costs have been included in the contract or in other appropriate agreements;

- determine that arrangements for deviation permits and waivers have been incorporated in the contract;

- determine that a quality assurance clause has been incorporated in the contract.

Note: An example of a suitable clause is: "All requirements of this contract are subject to GQA to the satisfaction of or authorised representative, who will notify you of the GQA activity to be performed".

7.1.1.2 Any corrective action arising from the above should be carried out before formally requesting GQA.

7.2 Delegation

7.2.1 Having completed all preliminary work, the Delegator is to complete the Request for Government Quality Assurance (RGQA) and forward it together with the necessary contractual documents to the Delegatee.

7.2.2 The Delegator is responsible for providing the Delegatee with all the necessary information in time to permit the Delegatee to plan, prepare and perform the defined GQA. Tasks are to be based on Risk assessment and evaluation and are to be mutually determined between the Delegator and Delegatee. Detailed instructions are to be avoided unless they are process specific and necessary to assure quality.

7.2.3 Deviation permits and waivers

7.2.3.1 The Tasking document (RGQA) should contain clear and detailed instructions to the Delegatee for the handling of applications for deviation permits and waivers.

8. Smernice za pooblaščenca

8.1 Splošno

8.1.1 Informacije o kakovosti v fazi pred pogodbo
8.1.1.2 Obvestilo o sprejetju/zavrnitvi ZahtZK je obrazec ZahtZK, ki ga podpiše pooblaščenec in je vrnjen predlagatelju.

8.1.1.3 Po sprejetju ZahtZK pooblaščenec pregleda "naloge" in preskrbi predlagatelju predlagani načrt nadzora s podrobnostmi o ukrepih, načrtovanih v odgovor na zadolžitve.

8.1.1.4 Ker se med ukrepanjem za ZK-V tveganja odpravljajo ali zmanjšujejo na minimum oziroma ker se pojavlja nova, je treba obveščati predlagatelja, tako da je mogoče temu ustrezno spremeniti "naloge".

8.1.2 Zastopnik za zagotavljanje kakovosti (ZastZK)

8.1.2.1 Osrednji državni organ za ZK-V bo preskrbel ZastZK pooblastila in sredstva, potrebna za izpolnitve zahteve. Za to imenovani ZastZK naj bi bil praviloma seznanjen z ustreznimi industrijskimi postopki in tehnikami in imel potrebno znanje in izkušnje.

8.1.3 Proučitev ZahtZK in pogodba

8.1.3.1 Za ustrezno načrtovanje izvedbe vloženega ZahtZK je bistveno, da je imenovani ZastZK seznanjen z zahtevami in pogodbami in pripadajoči dokumentacijami. Ob prejemu je treba ZahtZK temeljito proučiti zaradi določitve potrebnih ukrepov nadzora.

8.1.3.2 ZastZK naj dokumentira rezultate pregleda ZahtZK in vključi vse pomembne dejavnike v zvezi s kakovostjo in izvedbo ZK-V. Morebitne nerazrešene zadeve, neskladnosti ali odstopanja, ki so ugotovljena, je treba sporočiti predlagatelju.

8.2 Načrtovanje ZK-V (glej Prilogo 3)

8.2.1 Splošno

8.2.1.1 Namen načrtovanja je določiti najučinkovitejše in ekonomične načine izvajanja ZK-V. Izvedbo ZK-V je treba sporočiti po sprejemu ZahtZK in pri tem upoštevati dobavitevje predlagane ali ustaljene aranžmaje glede zagotavljanja kakovosti.

8.2.1.2 Na ukrepe ZK-V lahko vpliva tudi dejstvo, da lahko za podobne proizvode zahtevajo ZK-V različni predlagatelji. Zato lahko načrtovanje vključuje skupinski nadzor.

8.2.1.3 Med izvajanjem pogodbe naj bo ZastZK pozoren na spremembe pogojev, ki bi lahko negativno vplivali na

8. Guidelines for Delegatee

8.1 General

8.1.1 Pre-contract quality information.
8.1.1.2 Notification of acceptance/rejection of the RGQA is indicated by the return of the RGQA form, signed by the Delegatee, to the Delegator.

8.1.1.3 After acceptance of the RGQA, the Delegatee will review the "Tasks", and provide the Delegator with a proposed surveillance plan detailing the planned response to the Tasked activities.

8.1.1.4 As Risks are eliminated and minimised during GQA activity, or new Risks appear, the Delegator should be advised so that if necessary, a "Task" amendment can be issued accordingly.

8.1.2 Quality Assurance Representative (QAR)

8.1.2.1 The National GQA Focal Point will arrange for a QAR with the authority and resources necessary to satisfy the request. The QAR assigned to this should normally be familiar with the industrial practices and techniques involved, and have the necessary competence and experience.

8.1.3 Review of RGQA and contract

8.1.3.1 To properly plan for the performance of the requested RGQA it is essential that the assigned QAR has knowledge of the requirements of the contract and related documents. The RGQA should thoroughly reviewed upon receipt to establish the necessary surveillance actions.

8.1.3.2 The QAR should document the results of the RGQA review and should include all significant factors pertaining to quality and the performance of GQA. Any unresolved matters, non-conformance or discrepancies noted should be communicated to the Delegator.

8.2 Planning GQA (see Appendix 3)

8.2.1 General

8.2.1.1 The purpose of planning is to decide how GQA can most effectively and economically be performed. GQA implementation should be initiated after acceptance of the RGQA, and should take into account the contractor's proposed or established QA arrangements.

8.2.1.2 GQA activity may also be influenced by the fact that similar products are being subjected to GQA requests by different Delegators. Planning can therefore include a group surveillance activity.

8.2.1.3 During the course of the contract performance, the QAR should remain alert to changes of conditions which

spremembe. Na vse potrebne spremembe je treba opozoriti predlagatelja zaradi možne spremembe zastavljenih nalog v ZahtZK.

8.2.1.4 Če bi pooblaščenec v katerem koli trenutku med trajanjem pogodbe ugotovil, da ne more nadaljevati z ZK-V zaradi neustreznosti dobaviteljevega sistema kakovosti ali proizvoda, mora takoj formalno obvestiti predlagatelja.

8.3. Pooblaščanje za ZK-V pri podizvajalskih pogodbah

8.3.1 ZK-V pri podizvajalcih morajo urediti ZastZK glavnih dobaviteljev po posvetu s predlagateljem. Te dejavnosti lahko pokrivajo ZK-V v državi predlagateljici, državi pooblaščenca ali kakri tretji državi.

8.4 Korektivni in preventivni ukrepi

8.4.1 Kadar predlagatelj obvesti pooblaščenca o kakem neustreznem proizvodu, odkritem ob dostavi ali po njem, se mora pooblaščenec po ustrezni zadolžitvi takoj dogovoriti z dobaviteljem za izvedbo preiskave glede vzroka za neustreznost, da bi določil:

- a. pogodbeni status kakega podobnega proizvoda;
- b. ustrezne korektivne ukrepe;
- c. potrebne ukrepe za preprečitev ponovnega pojavljanja.

8.4.2 Kadar je kak neustrezen proizvod vrnjen dobavitelju v pregled in zahteva predlagatelj udeležbo ZastZK, bo morda treba spremeniti dogovorjene zadolžitve.

8.4.3 Kadar se ZK-V zahteva v zvezi reklamacijami v garancijskem roku, je treba tak ukrep jasno in podrobno opisati v dokumentaciji z zadolžitvami.

8.5 Dovoljenja za odstopanja in izvzetja

8.5.1 Prošnje za dovoljenja za odstopanja ali izvzetja, o katerih sprejema odločitev predlagatelj, je treba poslati predlagatelju prek ZastZK, ki lahko doda svoje pripombe ali priporočila, kot se zahteva v dogovorjenih zadolžitvah.

8.5.2 Evidenco postopkov ZastZK v zvezi s prošnjami za dovoljenja za odstopanja ali izvzetja mora voditi ZastZK zaradi morebitnih kasnejših ukrepov in jo mora na zahtevo dati na razpolago predlagatelju.

8.6 Zaračunavanje stroškov

8.6.1 ZK-V v skladu s tem MOS se izvaja na podlagi povračila stroškov.

8.6.2 Pred izvedbo vsakršnega ZK-V pooblaščenec oceni stroške zahtevanih del in pridobi od predlagatelja soglasje za te stroške pred začetkom del.

8.6.3 Druga možnost, s katero se prihrani čas za pridobitev soglasja je, da se ZK-V v skladu s tem MOS izvede na podlagi povračila 2% vrednosti naročila.

9. Dokončanje ZK-V

9.1 ZK-V je končano, ko ZastZK izpolni vse naloge iz ZahtZK ali ko predlagatelj obvesti pooblaščenca, da je zahteva za ZK-V prenehala.

9.2 ZastZK mora obvestiti predlagatelja o zadovoljivo izpolnjenem ZK-V z vrnitvijo obrazca, prikazanega v Prilogi 4.

9.3 Če se ne zahteva drugače, je treba evidenco o kakovosti v zvezi z ZahtZK hraniti sedem let po končanem ZK-V.

could have an adverse effect on the changes. Any changes necessary should be brought to the attention of the Delegator for possible amendment of the RGQA Tasking arrangement.

8.2.1.4 Should the Delegatee find at any time during the course of the contract that he cannot proceed with GQA because of non-conformance in the contractor's quality system or product, the Delegator should immediately be formally advised.

8.3 Delegation of GQA for subcontracts.

8.3.1 GQA at subcontractors must be arranged by the main contractors QAR in consultation with the Delegator. These activities may cover GQA in the delegating country, the country of the Delegatee, or in a third country.

8.4 Corrective and preventive action.

8.4.1 When the Delegator notifies the Delegatee of non-conforming product found on or subsequent to delivery, the Delegatee should, when Tasked, immediately arrange with the contractor to conduct an investigation into the cause of the non-conformity, to determine:

- a. the status of similar product contract;
- b. the appropriate corrective action;
- c. the action necessary to prevent recurrence.

8.4.2 When a non-conforming product is returned to the contractor for investigation, and the Delegator requires QAR involvement the Tasking arrangements may require amendment.

8.4.3 Where GQA is required in connection with warranty claims, this action must be clearly detailed in the Tasking document.

8.5 Deviation Permits and Waivers.

8.5.1 Applications for deviation permits or waivers which are subject to decisions by the Delegator, should be forwarded to the Delegator via the QAR who may add his comments or recommendations is required by the Tasking arrangement.

8.5.2 Records of all QAR actions pertaining to applications for deviation permits or waivers should be maintained by the QAR for any subsequent action, and should be made available to the Delegator on request.

8.6 Charges

8.6.1 GQA in accordance with this MOU will be performed on a repayment basis.

8.6.2 Before any GQA is performed, the Delegatee will cost the work requested and obtain the Delegator's consent to these costs before starting work.

8.6.3 Alternatively, to save time for consent, GQA in accordance with this MOU will be performed on a repayment basis of 2% of the order value.

9. GQA Completion

9.1 GQA is considered complete when the QAR has completed all of the Tasks in the RGQA, or when the Delegatee is notified by the Delegator that the requirements for GQA has been terminated.

9.2 The QAR should notify the Delegator of the satisfactory completion of the GQA by returning the form shown at Appendix 4.

9.3 Unless otherwise required, the quality records relating to RGQA should be kept for seven years after GQA completion.

OCENA TVEGANJA

Tveganje je lahko: znanstveno tveganje, tehnološko tveganje, tveganje pri tehničnem načrtovanju, tveganje pri dobavi, poslovno tveganje, komercialno tveganje, politično tveganje, tveganje v mednarodnem okviru.

Naslednji dve področji tveganja se zdita vredni obravnavane in sta podrobno obdelani kot primer:

Tveganje glede proizvoda in tveganje glede dobavitelja

Pri teh dveh področjih je treba upoštevati različne "do datne vidike". Glede na pogodbo je lahko pomemben eden ali več od teh dodatnih vidikov, zato so lahko pri teh različnih vidikih pomembna tale vprašanja:

Tveganje glede proizvoda

Znanstveno tveganje (umestna vprašanja: Bo stvar dejansko delovala? Ali so znanstvena načela preverjena? Je treba preverjena znanstvena načela prenesti na neko velikost/obseg, kjer izkušnje še ne obstajajo? So predvideni tehnični podatki v mejah fizičnih možnosti?).

Tehnološko tveganje (umestna vprašanja: Ali trenutno stanje tehnologije dopušča začetek projekta ob ustreznih ravni tveganja? Je tehnologija zrela, dokazana in na mestu za premostitev praznine na področju modernizacije?).

Tveganje pri tehničnem načrtovanju (umestna vprašanja: Kakšna tveganja so prisotna v procesu tehničnega načrtovanja, potrebrem za konstruiranje, razvoj in proizvodnjo ter preskušanje? Bodo potrebne zmogljivosti v smislu proizvodnih obratov, delovne sile, spretnosti, orodij na razpolago za izvedbo potrebnih dejavnosti? Ali so oblikovani postopki in ustrezeni pripomočki glede upravljanja konfiguracije? Ali obstajajo elementi, ki jih ni mogoče v celoti opredeliti v pogodbene/tehničnih specifikacijah? Kakšna so razhajanja med preskusi za prevzem po pogodbi in delovanjem v predlaganih obratovalnih razmerah?).

Tveganja glede dobavitelja

Tveganje pri dobavi (umestna vprašanja: V kolikšni meri je pogodba odvisna od dobave proizvoda, ki je pomanjkljiva in lahko pri njej pride do omejitve ali prekinitev? Ali obstaja verjetnost, da bodo na razpolago rezervne možnosti za dobavo? Ali je mogoče uporabiti nadomestne materiale in kakšne pogodbene kazni bi povzročila njihova zamenjava?).

Poslovno tveganje (umestna vprašanja: Do kakšnih tveganj lahko pride zaradi obratovalnih razmer, sistema vodenja in odločanja pri dobavitelju? Kakšna je finančna, pravna in upravljalska stabilnost družbe? Kakšna so tveganja pri pogodbah s podizvajalcji?).

**APPENDIX 2
TO ANNEX A**

RISK EVALUATION

Risk may be: Scientific Risk, Technological Risk, Engineering Risk Supply Risk, Business Risk, Commercial Risk, Political Risk, International Risk

The following two areas of Risk are considered worthy of consideration and are detailed as examples:

Product Risk and Contractor Risk

In these two areas, difference "sub-aspects" should be considered. Depending on the contract, one or more of these sub-aspects may be important, and the following questions may be relevant to these various aspects:

Product Risks

Scientific Risk (relevant questions: Will it actually work? Are the scientific principles proven? Do proven scientific principles need to be extrapolated to a size/extent not previously experienced? Is the specification within the bounds of physical possibility?);

Technological Risk (relevant questions: Does the current state of technology allow the project to be undertaken within a satisfactory level of Risk? Is the technology mature, proven and in place to bridge the innovation gap?);

Engineering Risk (relevant questions: What are the Risks involved in the engineering processes required to design, develop, manufacture and test? Will the necessary resources in terms of plant, labour, skills, tooling be available to carry out the required activities? Have procedures and facilities been established with respect of configuration management? Are three elements which cannot be completely defined in the contract/technical specification? What discrepancies are there between the contract acceptance test and the proposed service operational environment?)

Contractor Risks

Supply Risk (relevant questions: To what degree is the contract dependent on the supply of product which is scarce and/or may be subject to limitation or disruption? Are fall-back supply routes likely to be available? Can alternative materiel be used and what penalties would arise from their substitution?);

Business Risk (relevant questions: What Risks may arise from the contractor's operating situation, management system and decision making? What is the financial, legal and management stability of the company? What are subcontract Risks?).

**PRILOGA 3
K DODATKU A****NAČRTOVANJE**

Upoštevanje načrtovanja kakovosti pri dobavitelju. Pri pripravi programa nadzora ZK-V je treba upoštevati načrtovanje kakovosti pri dobavitelju, da bi bilo mogoče ZK-V dokončati v ustreznih fazih pogodbenih del.

Dosežki dobavitelja glede kakovosti. Poznavanje rezultatov dobavitelja pri prejšnjih pogodbah na področju obrambe je koristno za boljše načrtovanje ZK-V. Razpoložljive podatke prouči ZastZK in jih je treba poslati predlagatelju pri določanju načrta nadzora.

Informacije pred dodelitvijo pogodbe. ZastZK mora, če dobi tako nalogo, pred dodelitvijo pogodbe proučiti in analizirati informacije o ustreznosti dobaviteljevih zmogljivosti in njegovi zmožnosti, da izpolni pogodbene določbe o kakovosti. Posebno pozornost je treba posvetiti področjem, kjer so bile med pregledom ugotovljene pomanjkljivosti in kjer je dobavitelj izrazil svojo namero, da bo pri morebitni dodelitvi pogodbe popravil ali izboljšal svoje zmogljivosti in zmožnosti.

Informacije po dodelitvi pogodbe. Če je po dodelitvi pogodbe ugotovljeno, da dobavitelj ne razume jasno pogodbenih zahtev glede kakovosti, bo morda potrebna po dodelitvi pogodbe konferenca za razjasnitve pogodbenih zahtev in rešitev nesporazumov. Če predlagatelj take dejavnosti za ZK-V ni vključil v začetni zadolžitvi, je treba naloge dopolniti.

Zahteve glede specializiranih inšpekcij. Včasih so v pogodbi določeni preskusi (kot na primer balistični preskusi izstrelkov). Za to je lahko potrebna posebna oprema ali naprave za preskušanje, ki običajno niso na razpolago v obratih dobavitelja. Kadar mu je to naloženo, mora ZastZK tako preverjanje teh dejavnosti upoštevati v programu ZK-V.

Ukrepi ZastZK. Ko so po mnenju ZastZK vsa ugotovljenia tveganja odpravljena ali zmanjšana, je treba predlagatelju predlagati zmanjšanje ali prenehanje nadzora.

**APPENDIX 3
TO ANNEX A****PLANNING**

Paralleling contractor quality planning. The preparation of the GQA surveillance programme should take account of the contractor's quality planning, in order that GQA can be completed at the correct stage of contract activity.

Contractor Quality History. Knowledge of the performance of a contractor on previous defence contracts is advantageous to refine GQA planning. Available date should be reviewed by the QAR and provided to the Delegator when determining the surveillance plan.

Pre-contract award information. When Tasked the QAR should review and analyse and pre-award results pertaining to the adequacy of the contractor's facilities and potential capability to comply with the quality provisions of the contract. Special attention should be given to those areas reported deficient during the survey and where the contractor had indicated his intention to correct or improve his facilities or capabilities in the event of award.

Post-contract-award information. When it is determined after contract award that the contractor does not have a clear understanding of the quality requirements of the contract, a post-award conference may be required to clarify contract requirements and resolve misunderstandings. If this GQA activity has not been included by the Delegator in the initial Task, then a Task amendment will be required.

Specialised inspection requirements. Occasionally tests (such as ballistic testing of ammunition) are contractually specified. This may necessitate the use of specialised test equipment or facilities nor normally available at a contractor's plant. The QAR, when Tasked, should make allowance for the verification of these activities in the GQA programme.

QAR action. When, in the view of the QAR, all identified Risks have been eliminated or reduced, then a proposal should be made to the Delegator to either reduce or discontinue surveillance.
