Resolved to contribute to the strengthening of the multilateral trading system and to develop their relations in the field of trade in accordance with the basic principles of the General Agreement on Tariffs and Trade (GATT) and the Agreement establishing the World Trade Organisation (WTO),

Considering that no provision of this Agreement may be interpreted as exempting the Parties to this Agreement from their obligations under other international agreements,

Declaring their readiness to examine, in the light of any relevant factor, the possibility of developing and deepening their economic relations in order to extend them to fields not covered by this Agreement,

Have decided to conclude this Agreement:

**ARTICLE 1  
Objectives**

1. The Parties shall, by progressively eliminating the obstacles to substantially all their trade, gradually establish a free trade area in accordance with the provisions of this Agreement and in conformity with those of the GATT and WTO.

#### ARTICLE 11

##### **Internal taxation**

1. The Parties shall refrain from any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products originating in one Party and like products originating in the other Party.
2. Products exported to the territory of one of the Parties may not benefit from repayment of internal taxes in excess of the amount of direct or indirect taxes imposed on them.

#### ARTICLE 12

1. The Parties consider the liberalisation of their respective public procurement markets as an objective of this Agreement, as defined in Article 1 (Objectives).
2. The Parties shall progressively develop their respective regulations for public procurement with a view to grant suppliers of the other Party upon the entry into force of this

Agreement access to contract award procedures on their respective public procurement markets in accordance with the provisions of the Agreement on Government Procurement in Annex IV of the Agreement establishing the World Trade Organisation.

3. The Joint Committee shall examine developments related to the achievement of the objectives of this Article and may recommend practical modalities for implementing the provisions of paragraph 2 of this Article so as to ensure free access, transparency and full balance of rights and obligations.

4. During the examination referred to in paragraph 3 of this Article, the Joint Committee may consider, especially in the light of developments in this area in international relations, the possibility of extending the coverage and/or the degree of the market opening provided for in paragraph 2.

5. The Parties shall endeavour to accede to the relevant Agreements negotiated under the auspices of the World Trade Organisation.

#### ARTICLE 15

##### **Protection of intellectual property**

3. The provisions of paragraph 2 shall not apply to advantages granted by the Parties before the entry into force of this Agreement to any third country on an effective reciprocal basis.

4. The Parties agree, upon request of either Party, to review the provisions on the protection of intellectual property rights contained in this Article and in Annex IV, with a view to further improve levels of protection and to avoid or remedy trade distortions which may be caused by actual levels of protection of intellectual property rights.

#### ARTICLE 16

##### **Rules of competition concerning undertakings**

1. The following are incompatible with the proper functioning of this Agreement in so far as they may affect trade between the Parties:

(a) all agreements between undertakings, decisions by associations of undertakings and concerted practices

between undertakings which have as their object or effect the prevention, restriction or distortion of competition;

(b) abuse by one or more undertakings of a dominant position in the territories of the Parties, as a whole or in a substantial part thereof.

2. The provisions of paragraph 1 shall apply to the activities of all undertakings, including public undertakings and undertakings to which a Party grants special or exclusive rights. Undertakings entrusted with the operation of services of general economic interest or having the character of a revenue-producing monopoly shall be subject to the rules contained in this Article, in so far as the application of such rules does not obstruct the performance, in law or in fact, of the particular tasks assigned to them.

3. If a Party considers that a given practice is incompatible with paragraphs 1 and 2, it may take measures it considers necessary to deal with serious difficulties resulting from the practices in question, under the conditions and in accordance with the procedures laid down in Article 24 (Procedure for the application of safeguard measures).

#### ARTICLE 17

##### **State aid**

1. Any aid granted by a Party or through State resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall be, in so far as it may affect trade between the Parties, incompatible with the proper functioning of this Agreement, and in particular, the Parties shall not maintain or introduce export aid as listed in Annex V in trade between the Parties.

2. The Parties shall ensure transparency of state aid measures by exchanging information upon the request of either Party.

3. The Joint Committee shall keep the situation regarding application of state aid measures under review and shall elaborate rules on the basis of which the practices contrary to paragraph 1 shall be assessed, as well as the rules for their implementation. Such rules shall be applicable not later than one year after the entry into force of this Agreement.

4. If a Party considers that a given practice is incompatible with paragraph 1 of this Article, it may take appropriate measures under the conditions and in accordance with the procedure laid down in Article 24 (Procedure for the application of safeguard measures).

5. The Parties shall endeavour to accede to the relevant agreements negotiated under the auspices of the World Trade Organisation.

## ARTICLE 18

### **State monopolies**

1. The Parties shall ensure that any state monopoly of a commercial character be adjusted so that no discrimination regarding the conditions under which goods are procured and marketed will exist between nationals of the Parties. These goods shall be procured and marketed in accordance with commercial considerations.

2. The provisions of this Article shall apply to any body through which the competent authorities of the Parties, in law or in fact, either directly or indirectly supervise, determine or appreciably influence imports or exports between the Parties. These provisions shall likewise apply to monopolies delegated by the State to others.

## ARTICLE 19

### **Technical regulations**

1. The Parties shall co-operate and exchange information in the field of standardisation, metrology and certification with the aim to eliminate technical barriers to trade.

2. The relevant bodies of the Parties shall elaborate the rules of mutual recognition of the accreditation of testing and calibration laboratories and certification bodies and product and quality systems certificates of conformity issued in the Parties. Such rules shall include the rules of mutual recognition of the type approval of measuring equipment which are issued in the Parties and procedures for recognition of the results of the measurements, calibration and conformity with requirements.

## ARTICLE 20

### **Dumping**

If a Party finds that dumping within the meaning of Article VI of the General Agreement on Tariffs and Trade is taking place in trade relations governed by this Agreement, it may take appropriate measures against that practice in accordance with that Article and agreements related thereto, under the conditions and in accordance with the procedure laid down in Article 24 (Procedure for the application of safeguard measures).

## ARTICLE 21

### **Emergency action on imports of a particular product**

Where any product is being imported in such increased quantities and under conditions as to cause, or threaten to cause:

(a) serious injury to domestic producers of like or directly competitive products in the territory of the importing Party,

or

(b) serious disturbances in any related sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region,

the Party concerned may take appropriate measures under the conditions and in accordance with the procedure laid down in Article 24 (Procedure for the application of safeguard measures).

## ARTICLE 22

### **Re-export**

Where compliance with the provisions of Articles 8 (Customs duties on exports and charges having equivalent effect) and 9 (Quantitative restrictions on imports or exports and measures having equivalent effect) leads to re-export towards a third country against which the exporting Party maintains for the product concerned quantitative export restrictions, export duties or measures or charges having equivalent effect and this gives rise or is likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 24 (Procedure for the application of safeguard measures).

## ARTICLE 23

### **Balance of payments difficulties**

1. Where a Party is in serious balance of payments difficulties, or under imminent threat thereof, it may, as the case may be, in accordance with the terms and conditions established under the General Agreement on Tariffs and Trade and associated legal instruments, adopt trade restrictive measures, which shall be of limited duration and non-discriminatory, and may not exceed what is necessary to address the balance of payments situation. The Parties shall give preference to price-based measures. The measures shall be progressively relaxed as balance of payments conditions improve and they shall be eliminated when conditions no longer justify their maintenance. Either Party shall inform the Joint Committee forthwith of their introduction and of a time schedule for their removal.

2. The Parties shall, nevertheless, endeavour to avoid the imposition of restrictive measures for balance of payments purposes.

## ARTICLE 24

### **Procedure for the application of safeguard measures**

1. Before initiating the procedure for the application of safeguard measures set out in this Article, the Parties shall endeavour to solve any difficulties between them through direct consultations.

2. Without prejudice to paragraph 5 of this Article, a Party which considers resorting to safeguard measures shall promptly notify the other Party thereof and supply all relevant information. Consultations between the Parties shall take place without delay in the Joint Committee with a view to finding a mutually acceptable solution.

- 3.(a) As regards Articles 16 (Rules of competition concerning undertakings) and 17 (State aid) the Party concerned shall give the Joint Committee all the assistance required in order to examine the case and, where appropriate, eliminate the practice objected to. If the Party in question fails to put an end to the practice objected to within the period fixed by the Joint Committee or if the Joint Committee fails to reach an agreement after consultations, or after thirty days following a referral for such consultations, the Party concerned may adopt the appropriate measures to deal with the difficulties resulting from the practice in question.
- (b) As regards Articles 20 (Dumping), 21 (Emergency action in imports) and 22 (Re-export), the Joint Committee shall examine the case or the situation and may take any decision needed to put an end to the difficulties notified by the Party concerned. In the absence of such a decision within thirty days of the matter being referred to the Joint Committee, the Party concerned may adopt the measures necessary in order to remedy the situation.
- (c) As regards Article 30 (Fulfilment of obligations), the Party concerned shall supply the Joint Committee with all relevant information required for a thorough examination of the situation with a view to seeking a mutually acceptable solution or if a period of three months has elapsed from the date of notification, the Party concerned may take appropriate measures.

4. The safeguard measures taken shall be immediately notified to the other Party. They shall be restricted with regard to their extent and to their duration to what is strictly necessary in order to rectify the situation giving rise to their application and shall not be in excess of the injury caused by the practice or the difficulty in question. Priority shall be given to such measures as will least disturb the functioning of the Agreement.

5. The safeguard measures taken shall be the object of regular consultations with a view to their relaxation, substitution or abolition as soon as possible.

6. Where exceptional circumstances requiring immediate action make prior examination impossible, the Party concerned may, in the cases of Articles 16 (Rules of competition concerning undertakings), 17 (State aid), 20 (Dumping), 21 (Emergency action on imports) and 22 (Re-export) apply forthwith the precautionary and provisional measures strictly necessary to deal with the situation. The Joint Committee shall be notified of these measures without delay and consultations between the Parties shall take place as soon as possible.

## ARTICLE 25 Security exceptions

Nothing in this Agreement shall prevent a Party from taking any measures which it considers necessary:

- (a) to prevent the disclosure of information contrary to its essential security interests;
- (b) for the protection of its essential security interests or for the implementation of international obligations or national policies:
  - (i) relating to the traffic of arms, ammunition and implements of war, provided that such measures do not impair the conditions of competition in respect of products not intended for specifically military purposes, and to such traffic in other goods, materials and services as is carried on directly or indirectly for the purpose of supplying a military establishment; or
  - (ii) relating to the non-proliferation of biological and chemical weapons, nuclear weapons or other nuclear explosive devices; or
  - (iii) taken in time of war or other serious international tension.

## ARTICLE 26 The Joint Committee

1. The implementation and functioning of this Agreement shall be supervised and administered by a Joint Committee.
2. The Joint Committee shall be comprised of the representatives of the Parties.
3. For the purposes of the proper implementation of this Agreement, the Parties shall exchange information and, at the request of any Party, shall hold consultations within the Joint Committee. The Committee shall keep under review the possibility of further removal of the obstacles to trade between the Parties.
4. The Joint Committee may take decisions in cases provided for in this Agreement. On other matters it may make recommendations.

## ARTICLE 27 Procedures of the Joint Committee

1. For the proper implementation of this Agreement the Joint Committee shall meet whenever necessary, but at least once a year. Each Party may request that a meeting be held.
2. The Joint Committee shall act by mutual agreement.
3. If a representative in the Joint Committee of a Party has accepted a decision, subject to the fulfilment of internal legal requirements, the decision shall enter into force, if no later date is contained therein, on the date the lifting of the reservation is notified.

4. For the purposes of this Agreement the Joint Committee may adopt its rules of procedure which shall, inter alia, contain provisions for convening meetings and for the designation of the Chairman and his/her term of office.

5. The Joint Committee may decide to set up sub-committees or working parties as it considers necessary to assist it in accomplishing its tasks.

#### **ARTICLE 28 Evolutionary clause**

1. The Parties undertake to examine, in the light of any relevant factor, the possibility of further developing and deepening the relations established by the Agreement by extending them to fields not covered thereby. The Parties may instruct the Joint Committee to examine this possibility and, where appropriate, to make recommendations to them, particularly with a view to opening up negotiations.

2. Agreements resulting from the procedure referred to in paragraph 1 will be subject to ratification or approval by the Parties in accordance with their own procedure.

#### **ARTICLE 29 Services and Investment**

1. The Parties recognise the growing importance of certain areas, such as services and investments. In their efforts to gradually develop and broaden their co-operation, in particular in the context of European integration, they will co-operate with the aim of achieving a gradual liberalisation and mutual opening of markets for investments and trade in services, taking into account the results of the Uruguay Round as well as any relevant future work under the auspices of the World Trade Organisation.

2. The Parties will discuss this co-operation in the Joint Committee with the aim of developing and deepening their relations under the Agreement.

#### **ARTICLE 30 Fulfilment of obligations**

1. The Parties shall take all necessary measures to ensure the achievement of the objectives of the Agreement and the fulfilment of their obligations under this Agreement.

2. If either Party considers that the other Party has failed to fulfil an obligation under the Agreement, the Party concerned may take the appropriate measures under the conditions and in accordance with the procedure laid down in Article 24 (Procedure for the application of safeguard measures).

#### **ARTICLE 31 Annexes and Protocols**

The Annexes and the Protocols to this Agreement are an integral part of it. The Joint Committee may decide to amend the Annexes and Protocols in accordance with the provisions

of paragraph 3 of Article 27 (Procedures of the Joint Committee).

#### **ARTICLE 32**

##### **Customs unions, free trade areas and frontier trade**

This Agreement shall not prevent the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade to the extent that these do not negatively affect the trade regime and in particular the provisions concerning rules of origin provided by this Agreement.

#### **ARTICLE 33 Amendments**

Amendments to this Agreement other than those referred to in Article 31 (Annexes and Protocols) which are approved by the Joint Committee shall be submitted to the Parties for acceptance and shall enter into force according to each Party's internal procedure.

#### **ARTICLE 34 Entry into force**

This Agreement shall enter into force on the first day of the month following the date on which the Parties have notified each other through diplomatic channels that their internal legal requirements for the entry into force of this Agreement have been fulfilled, and shall remain in force indefinitely.

#### **ARTICLE 35 Provisional application**

Pending the entry into force of this Agreement according to Article 34 (Entry into force) this Agreement shall be provisionally applied from the first day of the month following the date of notification by the Republic of Latvia that its internal legal requirements for the entry into force of this Agreement have been fulfilled.

#### **ARTICLE 36 Withdrawal**

Either Party may withdraw from the Agreement by means of a written notification to the other Party. The Agreement shall cease to be in force six months after the date on which the notification was received by the other Party.

IN WITNESS WHEREOF, the respective plenipotentiaries, being duly authorised thereto, have signed this Agreement.

## TITLE II

### DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS"

#### Article 2

##### **General requirements**

1. For the purpose of implementing this Agreement, the following products shall be considered as originating in Slovenia:
  - (a) products wholly obtained in Slovenia within the meaning of Article 5 of this Protocol;
  - (b) products obtained in Slovenia incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Slovenia within the meaning of Article 6 of this Protocol;
  - (c) goods originating in the EEA, within the meaning of Protocol 4 to the Agreement on the European Economic Area.

2. For the purpose of implementing this Agreement, the following products shall be considered as originating in Latvia:

- (a) products wholly obtained in Latvia within the meaning of Article 5 of this Protocol;
- (b) products obtained in Latvia incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Latvia within the meaning of Article 6 of this Protocol.

#### Article 3

##### **Bilateral cumulation of origin**

1. Materials originating in Slovenia shall be considered as materials originating in Latvia when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided that they have undergone working or processing going beyond that referred to in Article 7 (1) of this Protocol.

2. Materials originating in Latvia shall be considered as materials originating in Slovenia when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided that they have undergone working or processing going beyond that referred to in Article 7 (1) of this Protocol.

#### Article 4

##### **Diagonal cumulation of origin**

1. Subject to the provisions of paragraphs 2 and 3, materials originating in Poland, Hungary, the Czech Republic, the Slovak Republic, Bulgaria, Romania, Lithuania, Estonia, Iceland, Norway, Switzerland or the Community within the meaning of Agreements between Slovenia and Latvia and each of these countries shall be considered as originating in Slovenia or Latvia when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing.

2. Products which have acquired originating status by virtue of paragraph 1 shall only continue to be considered as products originating in Slovenia or Latvia when the value added there exceeds the value of the materials used originating in any one of the other countries referred to in paragraph 1. If this is not so, the products concerned shall be considered as originating in the country referred to in paragraph 1 which accounts for the highest value of originating materials used. In the allocation of origin, no account shall be taken of materials originating in the other countries referred to in paragraph 1 which have undergone sufficient working or processing in Slovenia or Latvia.

3. The cumulation provided for in this Article may only be applied where materials used have acquired the status of originating products by an application of rules of origin identical to the rules in this Protocol. Slovenia and Latvia shall provide each other with details of agreements and their

corresponding rules of origin which have been concluded with the other countries referred to in paragraph 1.

4. Notwithstanding paragraph 3 of this Article the cumulation provided for in this Article shall enter into force in respect of Slovenia or Latvia and any one of the other countries referred to in paragraph 1 as from the date of the respective communication.

#### Article 5

##### **Wholly obtained products**

1. The following shall be considered as wholly obtained in Slovenia or Latvia:

- (a) mineral products extracted from their soil or from their seabed;
- (b) vegetable products harvested there;
- (c) live animals born and raised there;
- (d) products from live animals raised there;
- (e) products obtained by hunting or fishing conducted there;
- (f) products of sea fishing and other products taken from the sea outside the territorial waters of Slovenia or Latvia by their vessels;
- (g) products made aboard their factory ships exclusively from products referred to in subparagraph (f);
- (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;
- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;
- (k) goods produced there exclusively from the products specified in subparagraphs (a) to (j).

2. The terms "their vessels" and "their factory ships" in subparagraphs 1(f) and (g) shall apply only to vessels and factory ships:

- (a) which are registered or recorded in Slovenia or Latvia;
- (b) which sail under the flag of Slovenia or of Latvia;
- (c) which are owned to an extent of at least 50% by nationals of Slovenia or of Latvia, or by a company with its head office in one of these States, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are nationals of Slovenia or of Latvia and of which, in addition, in the case of partnerships or limited companies, at least half the

capital belongs to those States or to public bodies or nationals of the said States;

- (d) of which the master and officers are nationals of Slovenia or of Latvia; and
- (e) of which at least 75 per cent of the crew are nationals of Slovenia or of Latvia.

#### Article 6

##### **Sufficiently worked or processed products**

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II of this Protocol are fulfilled.

The conditions referred to above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10% of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within chapters 50 to 63 of the Harmonized System.

3. Paragraphs 1 and 2 shall apply except as provided in Article 7.

#### Article 7

##### **Insufficient working or processing operations**

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:

- (a) operations to ensure the preservation of products in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);

- (b) simple operations consisting of removal of dust, sifting or screening, sorting, classifying, matching (including the making-up of sets of articles), washing, painting, cutting up;
- (c) (i) changes of packaging and breaking up and assembly of packages,  
 (ii) simple placing in bottles, flasks, bags, cases, boxes, fixing on cards or boards etc., and all other simple packaging operations;
- (d) affixing marks, labels and other like distinguishing signs on products or their packaging;
- (e) simple mixing of products, whether or not of different kinds, where one or more components of the mixtures do not meet the conditions laid down in this Protocol to enable them to be considered as originating in Slovenia or Latvia;
- (f) simple assembly of parts to constitute a complete product;
- (g) a combination of two or more operations specified in subparagraphs (a) to (f)
- (h) slaughter of animals.

2. All the operations carried out in either Slovenia or Latvia on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

#### Article 8 Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.

Accordingly, it follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
  - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.
2. Where, under general rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

#### Article 9

##### **Accessories, spare parts and tools**

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, are regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

#### Article 10 Sets

Sets, as defined in general rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

#### Article 11 Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture :

- a) energy and fuel;
- b) plant and equipment;
- c) machines and tools;
- d) goods which do not enter and which are not intended to enter into the final composition of the product.

#### TITLE III

  - (a) the goods returned are the same goods as those exported; and
  - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

**Article 13**  
**Direct transport**

1. The preferential treatment provided for under the Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly between Slovenia and Latvia or through the territories of the other countries referred to in Article 4. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of Slovenia or Latvia.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

- (a) a single transport document covering the passage from the exporting country through the country of transit; or
- (b) a certificate issued by the customs authorities of the country of transit:
  - (i) giving an exact description of the products;
  - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used; and
  - (iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any substantiating documents.

**Article 14**  
**Exhibitions**

1. Originating products, sent for exhibition in a country other than those referred to in Article 4 and sold after the exhibition for importation in Slovenia or Latvia shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that :

- (a) an exporter has consigned these products from Slovenia or Latvia to the country in which the exhibition is held and has exhibited them there;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in Slovenia or Latvia;
- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

**TITLE IV**

**DRAWBACK OR EXEMPTION**

Article 15

**Prohibition of drawback of, or exemption from, customs duties**

1. Non-originating materials used in the manufacture of products originating in Slovenia or in Latvia or in one of the other countries referred to in Article 4 for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in Slovenia or Latvia to drawback of, or exemption from, customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in Slovenia or Latvia to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The provisions of paragraph 1 to 3 shall also apply in respect of packaging within the meaning of Article 8 (2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10 when such items are non-originating.

2. For this purpose, the exporter or his authorized representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in one of the languages in which this Agreement is drawn up and in accordance with the provisions of the domestic law of the exporting country. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. A movement certificate EUR.1 shall be issued by the customs authorities of Slovenia or Latvia if the products concerned can be considered as products originating in Slovenia, Latvia or in one of the other countries referred to in Article 4 and fulfill the other requirements of this Protocol.

5. The issuing customs authorities shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

#### Article 18 Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

- (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in this application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively must be endorsed with one of the following phrases:

"ISSUED RETROSPECTIVELY", "IZDANO NAKNADNO", "IZDOTS PĒC PREČU EKSPORTA", "ISDUOTAS PO EKSPORTAVIMO", "NACHTRÄGLICH AUSGESTELLT", "DELIVRE A POSTERIORI", "RILASCIATO A POSTERIORI", "AFGEGEVEN A POSTERIORI", "ISSUED RETROSPECTIVELY", "UDSTEDT EFTERFØLGENDE", "ΕΚΔΟΘΕΝ ΕΚ ΤΩΝ ΥΣΤΕΡΩΝ", "EXPEDIDO A POSTERIORI", "EMITIDO A POSTERIORI", "ANNETTU JÄLKIKÄTEEN", "UTFÄRDAT I EFTERHAND", "ÚTGEFID EFTIR Á", "UTSTEDT SENERE".

5. The endorsement referred to in paragraph 4 shall be inserted in the "Remarks" box of the movement certificate EUR.1.

#### Article 19

##### **Issue of a duplicate movement certificate EUR.1**

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with one of the following words:

"DUPLICATE", "DVOJNIK", "DUBLIKĀTS", "DUBLIKATAS", "DUPLIKAT", "DUPLICATA", "DUPLICATO", "DUPLICAAT", "DUPLICATE", "ΑΝΤΙΓΡΑΦΟ", "DUPLICADO", "SEGUNDA VIA", "EFTIRRIT", "KAKSOISKAPPAL".

3. The endorsement referred to in paragraph 2 shall be inserted in the "Remarks" box of the duplicate movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

#### Article 20

##### **Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously**

When originating products are placed under the control of a customs office in Slovenia or Latvia, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within Slovenia or Latvia. The replacement movement certificate(s) EUR1 shall be issued by the customs office under whose control the products are placed.

#### Article 21

##### **Conditions for making out an invoice declaration**

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:

- (a) by an approved exporter within the meaning of Article 22, or
- (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed ECU 6 000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in Slovenia or Latvia or in one of the other countries referred to in Article 4 and fulfil the other requirements of this Protocol.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

**Article 22**  
**Approved exporter**

1. The customs authorities of the exporting country may authorize any exporter who makes frequent shipments of products under this Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities evidence of the originating status of the products as well as the fulfilment of the other requirements of this Protocol.
2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.
4. The customs authorities shall monitor the use of the authorisation by the approved exporter.
5. The customs authorities may withdraw the authorization at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorization.

**Article 23**  
**Validity of proof of origin**

1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

**Article 24**  
**Submission of proof of origin**

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

**Article 25**  
**Importation by instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of general rule 2(a) of the Harmonized System falling within Sections XVI and XVII or heading Nos. 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

**Article 26**  
**Exemptions from proof of origin**

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such declaration. In the case of products sent by post, this declaration can be made on the customs declaration C2/CP3 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products must not exceed ECU 500 in the case of small packages or ECU 1200 in the case of products forming part of travellers personal luggage.

**Article 27**  
**Supporting documents**

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in Slovenia or Latvia or in one of the other countries referred to in Article 4 and fulfil the other requirements of this Protocol may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (b) documents proving the originating status of materials used, issued or made out in Slovenia or Latvia where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in Slovenia or Latvia, issued or made out in

- Slovenia or Latvia, where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in Slovenia or Latvia in accordance with this Protocol, or in one of the other countries referred to in Article 4, in accordance with rules of origin which are identical to the rules in this Protocol.

#### Article 28

##### **Preservation of proof of origin and supporting documents**

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 21(3).
3. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).
4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

#### Article 29

##### **Discrepancies and formal errors**

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

#### Article 30

##### **Amounts expressed in ECU**

1. Amounts in the national currency of the exporting country equivalent to the amounts expressed in ECUs shall be fixed by the exporting country and communicated to the importing country.
2. When the amounts exceed the corresponding amounts fixed by the importing country, the latter shall accept them if the products are invoiced in the currency of the exporting country. When the products are invoiced in the currency of another country referred to in Article 4, the importing country

shall recognize the amount notified by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that national currency of the amounts expressed in ECUs as at the first working day in October 1995.

4. The amounts expressed in ECUs and their equivalents in the national currencies of Slovenia and Latvia shall be reviewed by the Joint Committee at the request of Slovenia or Latvia. When carrying out this review, the Joint Committee shall ensure that there will be no decrease in the amounts to be used in any national currency and shall furthermore consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in ECUs.

#### TITLE VI

##### **ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION**

#### Article 31

##### **Mutual assistance**

1. The customs authorities of Slovenia and of Latvia shall provide each other with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for issuing movement certificates EUR.1 and for verifying those certificates and invoice declarations.
2. In order to ensure the proper application of this Protocol, Slovenia and Latvia shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

#### Article 32

##### **Verification of proofs of origin**

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the movement

certificate EUR.1 or the invoice declaration is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in Slovenia, Latvia or in one of the other countries referred to in Article 4 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

#### **Article 33 Dispute settlement**

Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Joint Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

#### **Article 34 Penalties**

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

#### **Article 35 Free zones**

1. Slovenia and Latvia shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in

their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in Slovenia or Latvia are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new EUR.1 certificate at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

## **TITLE VII**

### **FINAL PROVISIONS**

#### **Article 36**

#### **Goods in transit and storage**

Goods which conform to the provisions of Title II and which on the date of entry into force of the Agreement are either being transported or are being held in Slovenia or in Latvia in temporary storage, in bonded warehouses or in free zones, may be accepted as originating products, subject to the submission, within four months from that date, to the customs authorities of the importing country of proof of origin, drawn up retrospectively, and of any documents that provide supporting evidence of the conditions of transport.

#### **Article 37**

#### **Sub-Committee on customs and origin matters**

A Sub-Committee on customs and origin matters shall be set up under the Joint Committee to assist it in carrying out its duties and to ensure a continuous information and consultations process between experts.

It shall be composed of experts from Slovenia and Latvia responsible for questions related to customs and origin matters.

#### **Article 38**

#### **Non-preferential treatment**

For the purpose of implementing Article 2 of this Protocol, any product originating in a Party to this Agreement shall, on exportation to another Party to this Agreement, be treated as a non-originating product during the period or periods in which the last mentioned Party to this Agreement applies the rate of duty applicable to third countries or any corresponding safeguard measure to such products in accordance with this Agreement.

#### **Article 39**

#### **Amendments to the Protocol**

The Joint Committee may decide to amend the provisions of this Protocol.

## ANNEX I

### INTRODUCTORY NOTES TO THE LIST IN ANNEX II

**Note 1:**

The list sets out for the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of this Protocol.

**Note 2 :**

- 2.1 The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in columns 3 or 4 apply only to the part of that heading or chapter as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

**Note 3:**

- 3.1. The provisions of Article 6 of this Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in Slovenia or in Latvia.

Example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from other alloy steel roughly shaped by forging of heading No ex 7224.

If this forging has been forged in Slovenia or in Latvia from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in Slovenia or in Latvia. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Thus if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.
- 3.3. Without prejudice to note 3.2 where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading No ..." means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.
- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibre may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not produced from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular

material specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

**Example:**

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth - even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn - that is the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

**Note 4 :**

- 4.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.
- 4.2. The term "natural fibres" includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.
- 4.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

**Note 5:**

- 5.1. Where for a given product in the list a reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

- 5.2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus Agave,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments
- artificial man-made filaments
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres
- yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,
- products of heading No 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of transparent or colored adhesive between two layers of plastic film,
- other products of heading No 5605.

**Example:**

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibre of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibre that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 per cent of the yarn.

**Example:**

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore

synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

Example:

A carpet with tufts made from both artificial yarns and cotton yarns and with a jute backing is a mixed product because three basic textile materials are used. Thus, any non-originating materials that are at a later stage of manufacture than the rule allows may be used, provided their total weight does not exceed 10 per cent of the weight of the textiles materials of the carpet. Thus, both the jute backing and/or the artificial yarns could be imported at that stage of manufacture, provided the weight conditions are met.

5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 per cent in respect of this yarn.

5.4. In the case of products incorporating strip consisting of a core of aluminum foil or of a core of plastic film whether or not coated with aluminum powder, of a width not exceeding 5 mm, sandwiches by means of an adhesive between two films of plastic film, this tolerance is 30 per cent in respect of this strip.

#### Note 6:

6.1. In the case of those textile products which are marked in the list by a footnote referring to this note, textile materials, with the exception of linings and interlinings, which do not satisfy the rule set out in the list in column 3 for the made up product concerned may be used provided that they are classified in a heading other than that of the product and that their value does not exceed 8 per cent of the ex- works price of the product.

6.2. Without prejudice to Note 6.3, materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that for a particular textile item, such as trousers, yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners even though slide-fasteners normally contain textiles.

6.3. Where a percentage rule applies, the value of materials which are not classified within Chapter 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

#### Note 7:

7.1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process<sup>1</sup>
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerization;
- (h) alkylation;
- (i) isomerization;

7.2. For the purposes of heading Nos 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process,<sup>1</sup>
- (c) cracking;
- (d) reforming;

1. See Additional Explanatory Note 4(b) to Chapter 27 of the combined nomenclature.

- (e) extraction by means of selective solvents;
  - (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
  - (g) polymerization;
  - (h) alkylation;
  - (i) isomerization;
  - (k) in respect of heavy oils falling within heading No ex 2710 only, desulphurization with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266-59 T method);
  - (l) in respect of products falling within heading No 2710 only, deparaffining by a process other than filtering;

2. Izvoznik, ki daje izjavo na računu, mora vsaj tri leta hraniti kopijo te izjave kot tudi dokumente, navedene v tretjem odstavku 21. člena.
3. Carinski organi države izvoznice, ki izdajajo potrdilo o prometu blaga EUR.1, morajo vsaj tri leta hraniti zahteve, navedene v drugem odstavku 17. člena.
4. Carinski organi države uvoznice morajo vsaj tri leta hraniti potrdila o prometu blaga EUR.1 in izjave na računih, ki so jim bili predloženi.

#### 29. člen

##### Razlike in formalne napake

1. Če so ugotovljene manjše razlike med navedbami na dokazilu o poreklu in tistimi na dokumentih, ki so bili predloženi carinskemu organu zaradi izpolnjevanja uvoznih formalnosti za izdelke, to ne pomeni *ipso facto* ničnosti omenjenega dokazila, če se pravilno ugotovi, da ta dokument ustreza predloženim izdelkom.
2. Očitne formalne napake, kot so npr. tipkarske, na dokazilu o poreklu ne morejo biti razlog za zavnritev, če te napake ne ustvarjajo dvomov o pravilnosti navedb v tem dokumentu.

#### 30. člen

##### Zneski, izraženi v ekujih

1. Zneske v valuti države izvoznice, ki ustrezajo zneskom, izraženim v ekujih, določi država izvoznica in jih sporoči državi uvoznici.
2. Kadar so zneski višji od ustreznih zneskov, ki jih je določila država uvoznica, jih mora slednja sprejeti, če so izdelki zaračunani v valuti države izvoznice. Kadar so izdelki zaračunani v valuti druge države, omenjene v 4. členu, mora država uvoznica priznati zneske, ki jih je ta država uradno sporočila.
3. Zneski, ki jih je treba uporabljati v valuti katere koli države, so protivrednosti zneskov v valuti te države, izraženi v ekujih na prvi delovni dan v oktobru 1995.
4. Skupni odbor na zahtevo Slovenije in Latvije pregleda v ekujih izražene zneske in njihovo protivrednost v domačih valutah Slovenije ali Latvije. Skupni odbor ob tem pregledu zagotovi, da se zneski, ki jih je treba uporabljati, ne bodo znižali v nobeni domači valuti in bo nadalje upošteval zaželeno ohranjanje realnih učinkov

teh vrednostnih omejitev. V ta namen se lahko odloči za spremembo zneskov, izraženih v ekujih.

## VI. ODDELEK

### DOGOVORI O UPRAVNEM SODELOVANJU

31. člen

#### Medsebojno sodelovanje

- Carinski organi Slovenije in Latvije si medsebojno izmenjajo vzorčne odtise žigov, ki jih uporabljajo njihovi carinski organi pri izdajanju potrdil o prometu blaga EUR.1, in naslove carinskih organov, odgovornih za izdajo potrdil o prometu blaga EUR.1 in za preverjanja teh potrdil in izjav na računih.
- Da bi zagotovili pravilno uporabo tega protokola, si Slovenija in Latvija preko pristojnih carinskih uprav medsebojno pomagata pri preverjanju verodostojnosti potrdil o prometu blaga EUR.1 ali izjav na računih ter točnosti informacij, ki so tam navedene.

32. člen

#### Preverjanje dokazil o poreklu

- Dokazila o poreklu se naknadno preverjajo naključno ali kadar carinski organi države uvoznice upravičeno dvomijo o pristnosti teh dokumentov, statusu porekla teh izdelkov ali izpolnitvi drugih zahtev tega protokola.
- Zaradi izvajanja določb prvega odstavka morajo carinski organi države uvoznice vrniti potrdilo o prometu blaga EUR.1 in račun, če je bil predložen, izjavu na računu ali kopijo teh dokumentov carinskim organom države izvoznice, in če tako ustreza, navesti razloge za poizvedbo. V podporo zahtevi za preverjanje se posilje vsak pridobljen dokument ali informacija, ki kaže, da so podatki na dokazilu o poreklu napačni.
- Preverjanje opravljajo carinski organi države izvoznice. V ta namen imajo pravico zahtevati katero koli dokazilo in opraviti kakršen koli pregled izvoznikovih poslovnih knjig ali kateri koli drug pregled, za katerega menijo, da je potreben.
- Če se carinski organi države uvoznice odločijo, da bodo začasno prenehali priznavati preferencialno obravnavo za take izdelke, medtem ko čakajo na izide preverjanja, morajo uvozniku ponuditi sprostitev blaga, pogojeno z varnostnimi ukrepi, ki se jim zdijo potrebni.
- Carinski organi, ki so zahtevali preverjanje, morajo biti o izidih tega preverjanja čim prej obveščeni. Izidi morajo jasno pokazati, ali so dokumenti pristni in če se izdelki, na katere se nanašajo, lahko štejejo za izdelke s poreklom iz Slovenije, Latvije ali ene od drugih držav, ki so omenjene v 4. členu ter izpolnjujejo druge zahteve tega protokola.

- Če v primerih upravičenega dvoma ni odgovora v desetih mesecih od datuma zahteve za preverjanje ali če odgovor ne vsebuje zadostne informacije za določitev verodostojnosti obravnavanega dokumenta ali prvega porekla izdelkov, carinski organi, ki so zahtevali preverjanje, razen v izjemnih okoliščinah, zavrnejo upravičenost za preferencialno obravnavo.

33. člen

#### Reševanje sporov

Če pride do sporov v zvezi s postopki preverjanja iz 32. člena, ki jih ni mogoče rešiti med carinskimi organi, ki zahtevajo preverjanje, in carinskimi organi, odgovornimi za izvedbo tega preverjanja, ali če se pojavi vprašanje glede razlage tega protokola, jih je treba predložiti Skupnemu odboru.

V vseh primerih se spori med uvoznikom in carinskimi organi države uvoznice rešujejo v skladu z zakonodajo te države.

34. člen

#### Kazni

Kaznovan bo vsakdo, ki sestavi ali povzroči, da se sestavi dokument, ki vsebuje nepravilne podatke, da bi pridobil preferencialno obravnavo za izdelke.

35. člen

#### Proste cono

- Slovenija in Latvija ukeneta vse potrebno da zagotovita, da se izdelki, s katerimi se trguje na podlagi dokazila o poreklu in za katere med prevozom uporabljata prosto cono na svojem ozemlju, ne zamenjajo z drugimi izdelki ter da na njih ne bodo opravljeni drugi postopki, razen običajnih, ki so potrebni za preprečevanje njihovega poslabšanja.
- Če se kot izjema od določb iz prvega odstavka izdelki s poreklom iz Slovenije ali Latvije, ki imajo dokazilo o poreklu, uvozijo v prosto cono na podlagi dokazila o poreklu in se na njih opravijo predelave ali obdelave, odgovorni organi na izvoznikovo zahtevo izdajo novo potrdilo o prometu blaga EUR.1, če je opravljena obdelava ali predelava v skladu z določbami tega protokola.

## VII. ODDELEK

### KONČNE DOLOČBE

36. člen

#### Blago na poti in v skladiščenju

Blago, ki ustreza določbam II. oddelka in ki je na dan začetka veljavnosti tega sporazuma bodisi na poti ali v začasnem skladiščenju v Sloveniji ali Latviji, v carinskem

skladišču ali prosti coni, se lahko sprejme kot blago s poreklom pod pogojem, da se v štirih mesecih od tega datuma carinskim organom uvozne države predloži dokazilo o poreklu, ki je bilo naknadno sestavljeno in vse dokumente, ki dodatno dokazujejo okoliščine prevoza.

### 37. člen

#### **Pododbor za carinske zadeve in vprašanja porekla**

V okviru Skupnega odbora se ustanovi pododbor za carinske zadeve in vprašanja porekla da pomaga pri opravljanju njegovih nalog ter zagotavlja nenehno obveščanje in posvetovanja med strokovnjaki.

Sestavlja ga strokovnjaki iz Slovenija in Latvije, ki so odgovorni za vprašanja v zvezi s carinskimi zadevami in poreklom blaga.

### 38. člen

#### **Nepreferencialna obravnava**

Za izvajanje 2. člena tega protokola se vsak izdelek s poreklom iz pogodbenice tega sporazuma ob izvozu v drugo pogodbenico tega sporazuma šteje za nepreferencialni izdelek v času ali v obdobjih, v katerih zadnja omenjena pogodbenica tega sporazuma uporablja carinske stopnje, veljavne za tretje države ali katere koli ustrezne zaščitne ukrepe za take izdelke v skladu s tem sporazumom.

### 39. člen

#### **Spremembe protokola**

Skupni odbor lahko odloči, da spremeni določbe tega protokola.

### **PRILOGA I**

#### **Uvodne opombe k seznamu v Prilogi II**

##### **Opomba 1:**

Seznam določa pogoje, ki se zahtevajo za vse izdelke, da bi se lahko šteli za zadosti obdelane ali predelane v smislu 6. člena tega protokola.

##### **Opomba 2:**

2.1 Prva dva stolpca v seznamu opisujeta pridobljeni izdelek. Prvi stolpec je tarifna številka ali številka poglavja, ki se uporablja v Harmoniziranem sistemu, drugi stolpec pa vsebuje opis blaga, ki se v tem sistemu uporablja za to tarifno številko ali poglavje. Za vsak vpis v prvih dveh stolpcih je določeno pravilo v 3. ali 4. stolpcu. Kjer je v nekaterih primerih pred vpisom v prvem stolpcu "ex", to pomeni, da se pravila v 3. ali 4. stolpcu uporabljajo samo za del tarifne številke, opisane v 2. stolpcu.

2.2 Če je v 1. stolpcu združenih več tarifnih številk ali pa je navedena številka poglavja in je zato opis izdelkov v 2.

stolpcu splošen, se zraven navedena pravila v 3. ali 4. stolpcu uporabljajo za vse izdelke, ki se po Harmoniziranem sistemu uvrščajo v tarifne številke tega poglavja ali v katere koli tarifne številke, združene v 1. stolpcu.

- 2.3 Če seznam vsebuje različna pravila, ki se uporabljajo za različne izdelke v okviru ene tarifne številke, je v vsakem novem odstavku opis tega dela tarifne številke, za katerega se uporabljajo zraven navedena pravila v 3. ali 4. stolpcu.
- 2.4 Če je za vpis v prvih dveh stolpcih pravilo določeno v 3. in 4. stolpcu, ima izvoznik možnost izbere, da uporabi bodisi pravilo, določeno v 3. stolpcu ali tisto iz 4. stolpca. ?e v 4. stolpcu ni pravila o poreklu, je treba uporabiti pravilo, določeno v 3. stolpcu.

##### **Opomba 3:**

3.1 Določbe 6. člena tega protokola za izdelke, ki so pridobili status blaga s poreklom in so uporabljeni pri izdelavi drugih izdelkov, se uporabljajo ne glede na to, ali je bil ta status pridobljen v tovarni, v kateri se izdelki uporabljajo, ali v drugi tovarni v Sloveniji ali v Latviji.

Na primer:

Motor iz tarifne številke 8407, za katerega pravilo določa, da vrednost materialov brez porekla, ki se lahko vgradijo, ne sme presegati 40 % cene franko tovarna, je izdelan iz "drugih legiranih jekel, grobo oblikovanih s kovanjem" iz tarifne številke ex 7224.

Če je bilo to kovanje opravljeno v Sloveniji ali v Latviji iz ingota brez porekla, potem je že pridobil poreklo na podlagi pravila za tarifno številko ex 7224 na seznamu. Zato se pri izračunu vrednosti motorja šteje, da ima poreklo, ne glede na to, ali je bil izdelan v isti tovarni ali v drugi tovarni v Sloveniji ali v Latviji. Zato se vrednost ingota brez porekla ne upošteva, ko se sešteva vrednost uporabljenih materialov brez porekla.

- 3.2 Pravilo v seznamu pomeni najmanjši del obdelave ali predelave in tudi več predelave ali obdelave dodeli status porekla, nasprotno pa manj predelave ali obdelave ne more dodeliti statusa porekla. Če torej pravilo določa, da je možno na določeni stopnji izdelave uporabiti material brez porekla, je uporaba tega materiala na zgodnejši stopnji obdelave dovoljena, uporaba takega materiala na kasnejši stopnji pa ne.
- 3.3 Če pravilo določa, da se lahko uporabijo "materiali iz katere koli tarifne številke", se ne glede na opombo 3.2 lahko uporabijo materiali iz iste tarifne številke kot izdelek, ki pa morajo upoštevati kakršne koli posebne omejitve, ki jih pravilo tudi lahko vsebuje. Seveda pa izraz "izdelava iz materialov iz katere koli tarifne številke, všečki druge materiale iz tarifne številke..." pomeni, da se lahko uporabijo samo materiali, uvrščeni v isto tarifno

- številko kot izdelek z drugačnim opisom, kot je opis izdelka v 2. stolpcu seznama.
- 3.4 Kadar pravilo na seznamu določa, da se izdelek lahko izdelo iz več kot enega materiala, to pomeni, da se lahko uporabi kateri koli material ali več materialov. Ni pa treba uporabiti vseh.
- Na primer:
- Pravilo za tkanine iz HS 5208 do 5212 določa, da se lahko uporabijo naravna vlakna, prav tako pa se lahko med drugimi materiali uporabijo tudi kemični materiali. To pa ne pomeni, da je treba uporabiti oboje, uporabi se lahko eno ali drugo ali oboje.
- 3.5 Kadar pravilo v seznamu določa, da mora biti izdelek izdelan iz določenega materiala, ta pogoj očitno ne preprečuje uporabe drugih materialov, ki zaradi svoje narave ne morejo zadostiti pravilu (glej tudi opombo 6.2 spodaj v zvezi s tekstilom).
- Na primer:
- Pravilo za pripravljeno hrano iz tarifne številke 1904, ki posebej izključuje uporabo žit in njihovih izdelkov, ne preprečuje uporabe mineralnih soli, kemikalij in drugih dodatkov, ki niso izdelki iz žit.
- Vendar to ne velja za izdelke, ki so, čeprav ne morejo biti izdelani iz posameznega materiala, določenega v seznamu, lahko izdelani iz materialov enake narave na zgodnejši stopnji izdelave.
- Na primer:
- Če gre za oblačila iz dela 62. poglavja, izdelanega iz netkanih materialov, če je za to vrsto izdelkov dovoljena samo uporaba preje brez porekla, ni možno začeti pri netkanem blagu, čeprav netkano blago običajno ne more biti izdelano iz preje. V takih primerih bi bil začetni material običajno na stopnji pred prejo, to je na stopnji vlaken.
- 3.6 Če pravilo v seznamu navaja za največjo vrednost materialov brez porekla, ki se lahko uporabijo, dve odstotni postavki, potem se ta odstotka ne smeta seštevati. Z drugimi besedami, največja vrednost vseh uporabljenih materialov brez porekla nikoli ne sme preseči najvišje od navedenih odstotnih postavk. Poleg tega posamezne odstotne postavke, ki se nanašajo na določene materiale, ne smejo biti presežene.
- Opomba 4:**
- 4.1 Izraz "naravna vlakna" se v seznamu uporablja za vlakna, ki niso umetna ali sintetična. Omejen je na stopnje pred predenjem, vključno z odpadki, in če ni drugače določeno, zajema vlakna, ki so bila mikana, česana ali drugače obdelana, vendar ne spredena.
- 4.2 Izraz "naravna vlakna" vključuje konjsko žimo iz tarifne številke 0503, svilo iz tarifnih številk 5002 in 5003 kakor tudi volnena vlakna, fino ali grobo živalsko dlako iz tarifnih številk 5101 do 5105, bombažna vlakna iz tarifnih številk 5201 do 5203 in druga rastlinska vlakna iz tarifnih številk 5301 do 5305.
- 4.3 Izrazi "tekstilna kaša", "kemični materiali" in "materiali za izdelavo papirja" so v seznamu uporabljeni za opis materialov, ki se ne uvrščajo v 50. do 63. poglavje in se lahko uporabijo za izdelavo umetnih, sintetičnih ali papirnih vlaken ali prej.
- 4.4 Izraz "umetna ali sintetična rezana vlakna" se v seznamu uporablja za sintetične ali umetne filamente, rezana vlakna ali odpadke iz tarifnih številk 5501 do 5507.
- Opomba 5:**
- 5.1 Če se za izdelek v seznamu navaja ta opomba, se za katere koli osnovne tekstilne materiale, uporabljeni pri njihovi izdelavi in ki upoštevana skupaj ne presegajo 10% skupne teže vseh uporabljenih osnovnih tekstilnih materialov, ne uporabljajo pogoji, določeni v 3. stolpcu seznama (glej tudi opombe 5.3 in 5.4 spodaj).
- 5.2 Vendar pa se dovoljeno odstopanje iz opombe 5.1 lahko uporabi le za mešane izdelke, ki so narejeni iz dveh ali več osnovnih tekstilnih materialov.
- Osnovni tekstilni materiali so:
- svila
  - volna
  - groba živalska dlaka
  - fina živalska dlaka
  - konjska žima
  - bombaž
  - materiali za izdelavo papirja in papir
  - lan
  - konoplja
  - juta in druga tekstilna vlakna iz ličja
  - sisal in druga tekstilna vlakna iz rodu agav
  - kokosova vlakna, abaka, ramija in druga rastlinska tekstilna vlakna
  - sintetični filamenti
  - umetni filamenti
  - prevodni filamenti
  - sintetična rezana vlakna iz polipropilena
  - sintetična rezana vlakna iz poliestra
  - sintetična rezana vlakna iz poliamida
  - sintetična rezana vlakna iz poliakrilonitrila
  - sintetična rezana vlakna iz poliimida
  - sintetična rezana vlakna iz politetrafluoretilena
  - sintetična rezana vlakna iz polifenilensulfida
  - sintetična rezana vlakna iz polivinilklorida
  - druga sintetična rezana vlakna
  - umetna rezana vlakna iz viskoze
  - druga umetna rezana vlakna
  - preja iz poliuretana, laminirana s fleksibilnimi segmenti polietra, povezana ali ne,

- preja iz poliuretana, laminirana s fleksibilnimi segmenti poliestra, povezana ali ne,
- izdelki iz tarifne številke 5605 (metalizirana preja), ki vključujejo trak z jedrom iz aluminijaste folije ali z jedrom iz plastičnega sloja, prevlečenega ali ne z aluminijastim prahom, širine do 5 mm, kjer so plasti zlepjene s prozornim ali obarvanim epilom med dvema plastičnima slojema,
- drugi izdelki iz tarifne številke 5605.

Na primer:

Preja iz tarifne številke 5205, izdelana iz bombažnih vlaken iz tarifne številke 5203 in sintetičnih rezanih vlaken iz tarifne številke 5506, je mešana preja. Zato se lahko sintetična rezana vlakna brez porekla, ki ne zadovoljujejo pravil o poreklu (ki zahtevajo izdelavo iz kemičnih materialov ali tekstilne kaše), uporabijo do 10 % teže preje.

Na primer:

Volnena tkanina iz tarifne številke 5112, izdelana iz volnene preje iz tarifne številke 5107 in sintetične preje iz sintetičnih rezanih vlaken iz tarifne številke 5509, je mešana tkanina. Zato se lahko sintetična preja, ki ne zadovoljuje pravil o poreklu (ki zahtevajo izdelavo iz kemičnih materialov ali tekstilne kaše) ali volnena preja, ki ne zadovoljuje pravil o poreklu (ki zahtevajo izdelavo iz naravnih vlaken, nemikanih ali nečesanih ali kako drugače pripravljenih za predenje) ali kombinacija obeh prej uporabi pod pogojem, da njihova skupna teža ne presega 10% teže tkanine.

Na primer:

Taftana tekstilna tkanina iz tarifne številke 5802, izdelana iz bombažne preje iz tarifne številke 5205 in iz bombažne tkanine iz tarifne številke 5210, je mešan izdelek, če je bombažna tkanina sama mešana tkanina, izdelana iz prej, uvrščenih v dve različni tarifni številki ali če so uporabljeni bombažne preje same mešanice.

Na primer:

Če bi bila ta taftana tekstilna tkanina izdelana iz bombažne preje iz tarifne številke 5205 in iz sintetične tkanine iz tarifne številke 5407, bi očitno bila uporabljena preja iz dveh različnih osnovnih tekstilnih materialov in je zato taftana tekstilna tkanina mešan izdelek.

Na primer:

Taftana preproga, narejena iz umetne in bombažne preje, na podlagi iz jute, je mešan izdelek, ker so uporabljeni trije osnovni tekstilni materiali. Tako se vsak material brez porekla, ki je na kasnejši stopnji izdelave, kot dovoljuje pravilo, lahko uporabi pod pogojem, da njihova skupna teža ne presega 10 % teže tekstilnih materialov v preprogi. Tako bi lahko uvozili podlago iz jute, umetno

prejo in/ali bombažna vlakna na tej stopnji izdelave, pod pogojem, da so izpolnjene zahteve glede teže.

- 5.3 Za izdelke, ki vsebujejo "preja iz poliuretana, laminirano s fleksibilnimi segmenti polietra, povezano ali ne", je to dovoljeno odstopanje pri preji 20 %.
- 5.4 Za izdelke, ki vsebujejo "trak z jedrom iz aluminijaste folije ali z jedrom iz plastičnega sloja, prevlečenega ali ne z aluminijastim prahom, širine do 5 mm, kjer so plasti zlepjene z lepilom med dvema plastičnima slojema", je dovoljeno odstopanje pri traku 30 %.

#### Opomba 6:

- 6.1 Tekstilni izdelki, ki so v seznamu označeni z opombo pod črto, ki se nanaša na to opombo, in tekstilni materiali, razen podlog in medvlog, ki ne ustrezajo pravilu za izdelan izdelek, določenem v seznamu v 3. stolpcu, se lahko uporabijo pod pogojem, da se uvrščajo v tarifno številko, ki je drugačna od tarifne številke izdelka ter da njihova vrednost ne presega 8 % cene izdelka franko tovarna.
- 6.2 Materiali, ki se ne uvrščajo v 50. do 63. poglavje, se ne glede na opombo 6.3 lahko prosto uporabljajo pri izdelavi tekstilnih izdelkov, ne glede na to, ali vsebujejo tekstil ali ne.

Na primer:

Če pravilo iz seznama določa, da mora biti za določen tekstilni izdelek, kot so na primer hlače, uporabljena preja, to ne preprečuje uporabe kovinskih predmetov, kot so gumbi, ker gumbi niso uvrščeni v 50. do 63. poglavje. Iz istega razloga to ne preprečuje uporabe zadrg, četudi zadrg običajno vsebujejo tekstil.

- 6.3 Če se uporablja odstotno pravilo, je treba pri izračunu vrednosti vključenih materialov brez porekla upoštevati tudi vrednost materialov, ki niso uvrščeni v 50. do 63. poglavje.

#### Opomba 7:

- 7.1 Za namene tarifnih številk ex 2707, 2713 do 2715, ex 2901, ex 2902 in ex 3403 so "specifični procesi" naslednji:
  - a) vakuumská destilácia;
  - b) ponovná destilácia z zelo natančným procesom frakcionáriania<sup>1</sup>;
  - c) razbijanie (kreking);
  - d) preoblikovanie (reforming);

1. Glej dodatno pojasnjevalno opombo 4 (b) k 27. poglavju kombinirane nomenklature

- e) ekstrakcija s pomočjo izbranih topil;
- f) proces, ki vsebuje vse naslednje postopke: obdelavo s koncentrirano žveplovo kislino, oleumom ali žveplovim anhidridom; nevtralizacijo z alkalnimi sredstvi; razbarvanje in očiščevanje z naravno aktivno prstjo, aktivirano prstjo, aktiviranim ogljem ali boksitom;
- g) polimerizacija;
- h) alkilizacija;
- i) izomerizacija.

7.2 Za namene tarifnih številk 2710, 2711 in 2712 so "specifični procesi" naslednji:

- a) vakuumnska destilacija;
- b) ponovna destilacija z zelo natančnim procesom frakcioniranja<sup>1</sup>;
- c) razbijanje (kreking);
- d) preoblikovanje (reforming);
- e) ekstrakcija s pomočjo izbranih topil;
- f) proces, ki vsebuje vse naslednje postopke: obdelavo s koncentrirano žveplovo kislino, oleumom ali žveplovim anhidridom; nevtralizacijo z alkalnimi sredstvi; razbarvanje in očiščevanje z naravno aktivno prstjo, aktivirano prstjo, aktiviranim ogljem ali boksitom;
- g) polimerizacija;

1. Glej dodatno pojasnjevalno opombo 4 (b) k 27. poglavju kombinirane nomenklature

- h) alkilizacija;
- i) izomerizacija;
- k) samo za težka olja, ki se uvrščajo v tarifno številko ex 2710, razvrzveplanje z vodikom, ki povzroči redukcijo vsaj 85 % vsebine žvepla pri obdelanih izdelkih (metoda ASTM D 1266-59 T);
- l) samo za izdelke, ki se uvrščajo v tarifno številko 2710, deparafinizacija s postopkom, ki ni filtriranje;
- m) samo za težka olja, ki se uvrščajo v tarifno številko ex 2710, obdelava z vodikom pri pritisku nad 20 barov in temperaturi nad 250°C, z uporabo katalizatorja, razen obdelave za razvrzveplanje, kadar je vodik aktivni element v kemični reakciji. Vendar se nadaljnja obdelava olj za mazanje iz tarifne številke ex 2710 (npr. končna obdelava z vodikom ali razbarvanje), še posebno takrat, kadar se želi izboljšati barva ali obstojnost, ne šteje za specifični proces;
- n) samo za goriva, ki se uvrščajo v tarifno številko ex 2710, atmosferska destilacija pod pogojem, da manj kot 30 % prostornine teh izdelkov, vključno z izgubami, destilira pri 300°C metodi ASTM D 86;
- o) samo za težka olja razen plinskih olj in kurih olj, ki se uvrščajo v tarifno številko ex 2710, obdelava s pomočjo visokofrekvenčnih razelektritev skozi krtačke.

7.3 Za namene tarifnih številk ex 2707, 2713 do 2715, ex 2901, ex 2902 in ex 3403 porekla ne podelijo enostavne operacije, kot so: čiščenje, dekantiranje, razsoljevanje, vodna separacija, filtriranje, barvanje, označevanje, ohranjanje vsebnosti žvepla kot rezultat mešanja izdelkov z različno vsebnostjo žvepla, katera koli kombinacija teh operacij ali podobne operacije.

**PRILOGA II**

da bi lahko izdelani izdelki dobili status blaga s poreklom**

*Izdelki v seznamu niso v celoti zajeti s sporazumom. Zato je treba upoštevati tudi ostale dele sporazuma.*

## ZAPIS O SOGLASJU K SPORAZUMU O PROSTI TRGOVINI MED REPUBLIKO SLOVENIJO IN REPUBLIKO LATVIJO

### A. PREPOVED POVRAČILA CARINE ALI OPROSTITVE PLAČILA CARINE

Slovenija in Latvija soglašata, da se določbe 15. člena protokola B ne bodo uporabljale do 1. januarja 1997 pod pogojem, da se pri tem uporabljena praksa ne bo spremenila.

Skupni odbor lahko podaljša to odstopanje, upoštevajoč pri tem prakso, ki se uporablja med Slovenijo ali Latvijo in Evropsko skupnostjo. Če se ugotovi, da je zaradi uporabe odstopanja od 15. člena, tako povečan uvoz izdelka v Slovenijo ali v Latvijo ali pod takimi pogoji, da to povzroča ali utegne provzročiti resne težave proizvajalcem podobnega ali neposredno konkurenčnega blaga v Sloveniji ali v Latviji, se lahko določbe 15.člena ponovno uvedejo za tak izdelek.

### B. UPORABA NOMENKLATURE HS 1996

Slovenija in Latvija sta se dogovorili, da se bosta v pisni obliki obvestili o datumu uporabe nove verzije HS, ki velja od 1. januarja 1996. Obvestilo bo, če bo potrebno, vsebovalo tudi katero koli tehnično spremembo k prilogam in protokolom tega sporazuma, ki bi nastale z uvedbo nove verzije nomenklature HS.

## 3. člen

Vlada Republike Slovenije lahko predpiše način izvajanja sporazuma ter postopek in pogoje razdeljevanja kvot za kmetijske in živilske izdelke, določene v sporazumu.

## 4. člen

Za izvajanje tega sporazuma skrbita Ministrstvo za ekonomske odnose in razvoj in Ministrstvo za finance.

## 5. člen

Ta zakon začne veljati naslednji dan po objavi v Uradnem listu Republike Slovenije – Mednarodne pogodbe.
