### IMPORTANT NOTICE

1. When the authority which has granted the approval deems it necessary, photographs or diagrams authenticated by the authority shall be attached to the approval certificate. The number of those documents shall then be inserted by the competent authority, under item No. 6 of the certificate.
2. The certificate shall be kept on the road vehicle. This must be the original of the certificate, not, however, a photocopy.
3. Road vehicles shall be produced every two years, for the purposes of inspection and of renewal of approval where appropriate, to the competent authorities of the country in which the vehicle is registered or, in the case of unregistered vehicles, of the country in which the owner or user is resident.
4. If a road vehicle no longer complies with the technical conditions prescribed for its approval, it shall, before it can be used for the transport of goods under cover of TIR Carnets, be restored to the condition which had justified its approval so as to comply again with the said technical conditions.
5. If the essential characteristics of a road vehicle are changed, the vehicle shall cease to be covered by the approval and shall be re-approved by the competent authority before it can be used for the transport of goods under cover of TIR Carnets.
