

The diagram illustrates the placement of speed limit signs on a two-lane road. The road is divided into sections with different speed limits: 160, 120, 100 km/h; 140, 120, 100 km/h; 130, 110, 90 km/h; 80, 70, 60 km/h; and 160, 120, 100 km/h. The distance between the start of a new section and the placement of the first sign is 700 m. The signs are placed at the start of each section, with the first sign in each section being a rectangular sign and the subsequent signs being triangular warning signs. The distance between the first and second signs in each section is 700 m. The distance between the last sign in one section and the first sign in the next section is 700 m. The distance between the last sign in one section and the first sign in the next section is 700 m. The distance between the last sign in one section and the first sign in the next section is 700 m.

Opomba: za levostranski promet se signali postavljajo kot pri desnostranskem prometu, vendar tako, da se postavljajo na levi strani tira. Pri obojestranskem prometu se signali postavljajo ob zunanji strani tira za vsako smer.

2) Na cepišču
