¹ The representatives of Argentina and Brazil stated that their participation in the capital of the Corporation should not only match their shares in the capital of the Bank, but also maintain their relative shares in the total amount contributed by the regional developing countries in the capital of the Bank.

² The Mexican delegation makes the subscription listed above in order to help eliminate the oversubscription that has prevented the Inter-American Investment Corporation from coming into operation. Nevertheless, it wishes to put on record the desire of Mexico to achieve greater share participation in these multilateral organizations, to more adequately reflect through a system of objective indicators its size in terms of economy, population and requirements for financial support for its development process.

³ Venezuela ratifies that it has decided to subscribe 1,248 shares of the Inter-American Investment Corporation, which gives it a participation of 6.238% in its capital, to enable the Corporation to begin operating as soon as possible. However, Venezuela states for the record that it has not abandoned its desire to achieve a greater share participation in the future.
